GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

30th January 1878, No. 469 W.

General.

Establishment.

Read the following paper:—

No. 272. Endorsement of the District Engineer, Salem, dated Salem, 10th January 1878, No. 178 S L.

From A. J. HUGHES, Esq., C.E., Executive Engineer, Darampoory, to Major J. PENNYCUICK, R.E., District Engineer, Salem, dated Sangabasaram, 9th January 1878.

WITH reference to the enclosed application from Mr. Kuster, Assistant Engineer, for a month's privilege leave on medical certificate and for permission to return to Bengal, I have the honor to recommend that he be allowed to return to Bengal on the completion of the work he has in hand which is the preparation of drawings of the tank sluices and towers of this project. It will involve much inconvenience and loss of time if he goes leaving these drawings in an unfinished state, and if this course meets with your approval he can finish the drawings at Bangalore or in your office at Salem and go to Calcutta as soon as they are finished without taking leave.

2. The drawings will not take more than a week to prepare and, although he is unfit for active duty, he is able to do office work.

From E. E. KUSTER, Esq., Assistant Engineer, to A. J. HUGHES, Esq., Executive Engineer, Marandahully Project.

I HAVE the honor to forward herewith the copy of a medical certificate signed by Doctor Macdonald, B.M.S., and should feel obliged if you would recommend me for one month's privilege leave dated from the 1st instant.

2. I returned from fifteen months' sick leave from Europe on the 13th of November 1876, and have since that time not had any further leave.

3. This has been the second severe attack of fever, and I do not think to be able to rejoin the Marandahully works. I therefore ask permission to return to Bengal, where sent to a dry climate up-country I have a better chance of preserving my health.

I HEREBY certify that Mr. E. E. A. Kuster, Assistant Engineer, Bengal Public Works Department, is suffering from the effects of a severe attack of malarine fever. I consider a change to Bangalore for a month absolutely necessary for the restoration of his health.

(Signed) T. MACDONALD, Surgeon, B.M.S.

SUBMITTED through the Examiner of Public Works Accounts for the consideration of Government.

2. Mr. Kuster has been dangerously ill with jungle fever and was removed by order of the Civil Surgeon, who went up from Salem to attend him to Bangalore.

3. I am afraid that it is only too true that he is not likely to recover health if he returns to Marandahully, and if the suggestion made in Mr. Hughes' letter can be adopted, it will be the most convenient course.

4. The drawings of the head works of the Marandahully project will require very careful preparation; Mr. Kuster is in possession of the views of the Chief Engineer for Irrigation and of myself with regard to the details of these works; he is an excellent draftsman, and it will cause very great inconvenience if the preparation of these drawings is taken out of his hands.

5. This is a work that can be quite easily done here or at Yercaud; less so at Bangalore, as Mr. Kuster would not be able to communicate personally with this office as may often be desirable. I think, however, that it will take a good deal more than the week mentioned in Mr. Hughes' letter.

6. Pending orders on this reference, which I request may be issued as soon as possible, I have sanctioned Mr. Kuster's remaining at Bangalore and working at the drawings which he has with him as far as his strength allows.

7. I should add that Mr. Kuster has, since he came to this district, devoted himself to his work in a manner beyond all praise, and there is no officer in the district whose services have been more valuable; his present illness is caused mainly by exposure in the discharge of his duties.

ORDER THEREON, 20th January 1878, No. 469 W.

MR. KUSTER will be allowed to stay at Yercaud or, if necessary, at Bangalore until the drawings are finished. The arrangement should be made by the District Engineer in concert with Mr. Kuster.

2. The month's leave desired by Mr. Kuster will not be necessary.
