The District Engineer,

Presidency.

To,

The Chief Engineer, and
Secretary to Govt. D.O.M.

Sir,

Mrs. Grace, the Governor when inspecting various buildings in Fort St. George on the evening of the 27th ultimo, directed me to report, after inspection with Lieut. Col. Cochrane V.C. & 3rd L.S. how much it would cost, to convert the block of Officers' quarters to the north and west of the Judge Advocate General's Office, into a Sergeants' Mess, for the use of the European Infantry Regiment stationed in the Fort. I have the honor to report that I have inspected the building in question with Lt. Col. Cochrane and have ascertained that no expenditure would be necessary to convert it into a Sergeants' Mess House. One grave objection however to its being turned into a Sergeants' Mess House is that there are already so few quarters suitable for married officers in the Fort.

This want is not much felt by the 11^{3^d} Regt.
but in the event of a Regiment succeeding
it, with a larger proportion of married
officers the loss of this quarter would be
seriously felt.

The building lately occupied by the
Examiners of P.W. Accounts, would make
an excellent Sergeants' Mess-House, or it
might be converted into Officers' quarters,
to compensate for the loss of the building
which it has been proposed to turn into
a Sergeants' Mess.

Sir,
In continuation of my letter No. 3742
of this day's date, I have the honor to forward
copy of a letter No. 3707 of 21st September 1878
from the Inspector General of Ordnance and
Magazines. I have only to observe that
the chimneys of the cook room belonging
to the quarters I now occupy are closer
to the Magazine than the chimneys of
the cook room of the proposed new
Officers quarters would be.

I have the honor to be

Sir,
Your most obedient servant

Sir,

With reference to your having informed me that it is contemplated that the building lately vacated by the Ex aminer Mr. Secombe is to be changed into Officers quarters I have the honor to point out that the building is in close proximity to the Main Guard Magazine in which small arm B.L. Ammunition is stored. This Ammunition is not of so dangerous a description as the A.L. Ammunition formerly stored in the Magazine, but still it is not advisable in my opinion that additional cook houses &c. should be constructed in its close vicinity.

I have &c.
