Buildings and Roads.
Civil Works.

Read the following papers:—

No. 176. Endorsement of the Acting Under Secretary to Government, Financial Department, dated Madras, 5th December 1878, No. 2,231.

From Colonel P. O'CONNELL, R.E., Superintending Engineer, Chingleput, to the Chief Engineer, Public Works Department, dated St. Thomas' Mount, 5th March 1878, No. 930.

In reference to G.O., No. 1 W, dated 2nd January 1878, I have the honor to forward for sanction the enclosed estimate, amounting to Rupees 13,140, for asphalting and metalling the roadway over the iron bridge across the Cortelliar. The rate for asphalting appears high, but the Range Officer reports that it cannot be reduced as will be seen from the data appended to the estimate. The work has been already commenced and is reported to have been completed over 14 bays for which the Range Officer has requested permission to make payment. This I have authorised in anticipation of the sanction of the estimate in order that the work may be proceeded with without interruption.

Proceedings of the Board of Revenue, dated 29th October 1878, No. 2,896.

From J. F. PRICE, Esq., Acting President of the Local Fund Boards, Chingleput District, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Saidapet, 27th September 1878, No. 79.

In reference to the Proceedings of the Board of Revenue, Miscellaneous No. 3,533, dated 4th April last, I have the honor to state that it was with the concurrence of the Local Fund Board of the Saidapet Circle that the work of asphalting the Cortelliar bridge was undertaken by the Public Works Department during the last official year. It was executed from the General Funds placed at their disposal, and the cost was debited to the Local Funds. The expenditure of Rupees 13,163 was included in Statement No. 4 accompanying the Local Fund Report for 1877-78, and as funds were not assigned for this work it increased the deficit of the Road Fund.

2. There is a saving of Rupees 6,580 remaining in favor of the Loan Fund. Of this sum Rupees 1,705 have been appropriated by the Local Fund Board for purposes relating to the bridge—*vide* letter, No. 80, dated 27th September 1878. A balance of Rupees 4,875 is thus left which has been credited to Local Funds in the accounts of this year and which is the only sum available to meet the deficit mentioned above. As the work has been finished and the expenditure incurred on it debited to the Local Funds, no allotment need be assigned for it in the current year.

3. I beg to return countersigned the estimates, &c., received with the Proceedings under reply and to annex an extract from the Proceedings of the Local Fund Board on the subject:—

"Resolved that the Board approve of the estimate for Rupees 13,140 for asphalting the Cortelliar bridge. They observe that the estimate was carried out long since and that the cost of it was debited in the Local Fund accounts of 1877-78. Under these circumstances it does not appear necessary to make an allotment."

THE estimates, amounting to Rupees 13,140, for asphalting and metalling the roadway over the iron bridge across the Cortelliar is submitted for the sanction of Government with reference to their endorsement, dated 15th March 1878, No. 451.

2. The work is stated to have been completed in 1877-78 at a cost of Rupees 13,163, which is debited to Local Funds in the accounts of that year.
