GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

27th December 1878, No. 4,858 W.

General.
Account.

No. 259. Proceedings of the Madras Government, dated 27th December 1878,
No. 4,858.

THE Governor in Council having now had before him returns of the grants and outlay on works of the several classes up to October 31st finds that there is a considerable amount of Local Fund Budget works still to be effected from the Local Fund allotments of the year; and resolves, therefore, that the Executive Engineers be instructed to carry out works so remaining as far as the amount of not exceeding one-third of the available unspent balances of Local Funds remaining on December 31st in each Local Fund Circle, such balances being estimated, exclusive of any contribution thereto from Provincial Grants-in-aid, and the Examiner is authorised to issue credits for the month to that extent, pending further orders which will be issued on receipt of the whole of the revised budgets from the Superintending Engineers.

2. The expenditure on other branches remains absolutely prohibited until further orders.

3. In the meantime the Chief Engineer and Chief Engineer for Irrigation will direct the employment of their staff on the completion of investigations of projects which have been partly carried out, and of plans and estimates, for which the pause in execution of works will afford a valuable opportunity.
