GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

7th January 1878, No. 80 W.

Buildings and Roads.
Civil Works.

Read the following papers:—

No. 74. From District Engineer, Presidency, dated 19th Dec. 1877, No. 5,487.
No. 74 A. From " " " 24th " " " 5,536.

No. 75. ORDER THEREON, 7th January 1878, No. 80 W.

In anticipation of the leave which it is understood that Mr. Grainger, General Superintendent, Public Works Stores and Workshops, is about to apply for, the District Engineer, Presidency, will arrange for charge of the Stores and Workshops being handed over to Mr. G. H. Faulkner, Executive Engineer, 2nd Grade, Bengal, now on duty at the Presidency.

2. The Government are much disappointed to find from a letter from the Examiner of Public Works Accounts, No. 153 W, dated 16th June 1877, that the revaluation of block and plant ordered in G.O., No. 668, dated 7th ~~May~~ ^{July} 1877, has made no progress. The work should be put in hand at once and pressed on day by day. As Mr. Grainger has failed to act up to his own suggestion and has neglected to carry out the orders of Government, it is for him to make amends for the failure by prompt action now. A report of the progress should be submitted before Mr. Grainger is relieved of his charge.

The District Engineer,
Presidency,
Fort St. George.

Sir,

I have the honor to reply to your
Memo. No. 5495 dated 21st Decr. 1877.
I was apprenticed to Messrs. Sharp, Roberts & Co.
(now Sharp, Stewart & Co.) at Lew. Notts. Manchester.
the then largest Mechanical Engineering firm in
the world. I passed through every department;
a year in each. Pattern making; Turning & planing;
fitting in both Locomotives & Cotton Spinning depart-
ment & Drawing Office & the last year as special
Assistant to Mr. Richard Roberts well known as one
of the greatest Mechanical Engineers in England.
Then for the last 16 years I have had "undivided"
charge of the Head Workshop Division in Calcutta.
The works were designed and built by me and the
Machinery erected.

All the Machinery in Calcutta has been under
my charge and Mechanical designs, estimates &c have
been made by me and the work made and erected
by me.

The works are as large as those in Madras.
but more complete.

The

The last report upon the work I left with
 Col. Ford. any if my doubt can remain as
 to my capabilities - reference by telegram can be
 made to Col. Haig Secretary to Government Agent
 who has known me personally and officially over
 18 years - to Mr. Walker Superintendent Engineer
 Culloch, who also has known me 16 years - to the
 Commissioner of Prisons - Mr. Richardson, Colonel
 Mullins who also has known me many years and
 who visited the Cross Harbour and was pleased
 to select many of my classes for telegraphing
 and lastly Mr. Wilson Deputy Chairman of Public
 Work accounts, now in Madras has reported on and
 examined my office work (if not twice) and who can
 speak as to order and regularity &c of Office
 Work

I have the honor to be
 Sir
 Your Obedient Servant

The District Engineer,
Presidency,
Fort St George

Sir,

In reply to your Memo No 52110 I have
the honor to state that I was employed by the
East India Irrigation Company in April 1862
and when that Company transferred their works
to the Government of India, January 1869, I was
employed as Assistant Engineer in good pay month
and confirmed in charge of the Head Workshop
Division in Cuttack.

I have had I believe only one month leave
since 1869 you will find all dates &c in the Classified
list which I have not with me but have written for

I have the honor to be.

Yours Obedient Servant,
J. W. Faulkner
Assistant Engineer

No. 5457.
Dated 19th Decr/77.

Mr. E. Eng. Faulkner,
Submits letter
from --- stating his
services in the P.W. C.

Extract from Letter No 153 W dated 16th
December 1877 from the Examiners of Public
Works Accounts, submitting Report of the
Presidency Workshops for 1876-77.

Para 7. In their order dated 7th March
1871 No 668 Government directed that
once in every five years, a revaluation of
Block and Plant should be made:
and this should have been done in 1875-76,
but the General Superintendent reported
in his letter No 1540 dated 25th July 1876,
submitting the annual Accounts for 1876-76,
that he deferred the revaluation till the
removal of the workshops to the new
building at the seven wells compound.
The revaluation was not made even in
the year under review. The General
Superintendent states that he has
not done so, as the factory did not
commence work in the new premises
until January 1877.
