Read the following paper:—

No. 247. From Captain A. AWDRY, R.E., Acting District Engineer, Coimbatore, to the Chief Engineer, Public Works Department, dated Coimbatore, 8th February 1878, No. 204 CI.

With reference to G.O., No. 587 W, of the 5th instant, (received this morning,) I have the honor to inform you that the delay in valuation and submission of completion reports in this district has arisen owing to the civil officers not having until quite lately begun to send in forms for works carried out by their agency.

2. Very considerable progress has been made since the reports filled up by the civil officers have been received by the Range officers.

3. As yet hardly any works under professional agency have been completed in this district.

4. I had the honor yesterday to request information as to whether this department may value and submit completion reports on civil officer's measurements, or whether works measured by the civil authorities have to be remeasured by this department; this course as yet is being adopted, but it naturally takes a considerable time after the receipt of the completion reports from the civil authorities.

No. 248. ORDER THEREON, 21st February 1878, No. 886 W.
