Read the following paper :—

No. 291. From Lieutenant-Colonel H. L. PRENDERGAST, R.E., Officiating Superintending Engineer, North Arcot, to the Chief Engineer, Public Works Department, dated Vellore, 16th February 1878, No. 4,434.

In reply to paragraph 2 of G.O., No. 587 W, of the 5th instant, I have the honor to report that I was at the extreme corner of the Punganoor Zemindary when the order came. I knew that a great many relief works had been inspected and measured, but I did not know why the Executive Officers had not furnished the completion certificates. I wrote the same day for reports to be sent to me, but have not been able to obtain full information.

2. From the reports received, however, from the taluqs south of the Palar, I find that 221 completion certificates have been prepared for works executed by the Revenue Department, and which have cost Rupees 1,16,866. The certificates are delayed for want of particulars of the distribution of expenditure under different heads; but it is expected that they will be despatched to me in a few days. Forty-seven other works have been inspected and measured, representing an outlay of Rupees 31,603; out of these certificates are this day sent to the Examiner of Public Works Accounts for 11 works amounting to Rupees 4,020-0-3. Some certificates have been sent back to the Executive Officer as incomplete, and for the rest details of supervision are awaited from the Revenue Department.

3. Thus a great deal of the material for the certificates has been collected, though it has not been put in the complete shape required for final adjustment.
