PUBLIC WORKS DEPARTMENT.

27th February 1878, No. 978 W.

General.  
Account.

Read the following paper :—

No. 306. Endersement of the District Engineer, Presidency, dated 14th February 1878, No. 6,431.

From J. N. GRAINGER, Esq., General Superintendent, Public Works Workshops and Stores, to the District Engineer, Presidency, dated Madras, 13th February 1878, No. 3,467.

I HAVE the honor to enclose a list of the tools remaining in hand in the Workshop Stores after meeting indents on account of "Famine Works." These tools were manufactured expressly on account of the famine, but as the demands on this account have now almost ceased, and the cost of these tools unnecessarily increase the Workshops stock, which could be readily supplied when required, I beg to request that the sanction of Government may be obtained for the surplus stock being transferred to the Public Works Stores, and the cost debited to Famine expenditure. A portion of the tools will be reserved in the Workshops Stores to meet indents from Local Fund Boards and Municipalities.

SUBMITTED to the Chief Engineer, Public Works Department, for orders.

(Signed) ROSS THOMPSON, Major, R.E.,  
District Engineer, Presidency.

No. 307. ORDER THEREON, 27th February 1878, No. 978 W.

THE Government defer passing any orders on the subject until the Superintendent has completed the stock-taking now in hand.
