15th January 1878, No. 240 W.

General.
Establishment.

No. 123.

Dated the 15th January 1878, No. 240 W.

THE alterations to the Presidency Workshops at Chepauk having been so far advanced as to admit of occupation of a portion of the buildings, the Governor in Council directs that the rooms available be appropriated as a temporary measure to the Examiner, Public Works Accounts, and his establishment, leaving the Consulting Engineer for Railways and his establishment at the Revenue Board Offices until the remainder of the accommodation is ready.

2. This arrangement will set free a large amount of space in the Fort.

3. The Public Works buildings will be utilized gradually by the offices concerned as the rooms are made ready for occupation.

4. The large building (former foundry) should be roofed at once as a comparatively slight amount of work is needed to make it available, and the structure is only being damaged by exposure and neglect.
