GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

28th January 1878, No. 433 W.

General.

Establishment.

Read the following paper:—

No. 252. : Proceedings of the Madras Government in the Judicial Department,
dated 16th January 1878, No. 103.

Read the following papers:—

From Lieutenant-Colonel R. B. KENNEDY, District Engineer, Malabar, to the Chief
Engineer, Department of Public Works, dated Luckadie, 4th July 1877,
No. 46.

I beg to forward copy of a letter from the Registrar of Assurances, Tellicherry,
and shall be much obliged by your informing me whether that officer is entitled to
call for such information; you will observe that he does not confine himself to inquiry
regarding the two rooms added for the use of the Registrar.

2. A solitary instance of this nature would not be worth reference but that it
establishes a precedent and may lead to a great deal of unnecessary trouble, and I
venture to trouble you as Head of the Department for your opinion.

From S. RAMASWAMIER, Registrar of Assurances, Tellicherry, to the District Engineer,
Malabar, dated Tellicherry, 29th June 1877, No. 152.

It appears from a statement furnished by the Examiner of Public Works Accounts that the
sums of Rupees 1,720-2-7 and Rupees 886 were spent in the years 1874-75 and 1875-76,
respectively, in making additions to the Taluq Cutcherry at Cannanore for the accommodation
of the Sub-Registrar of that station.

2. I have therefore the honor to request you will be good enough to inform me—

- (a.) When the building was commenced;
- (b.) When it was completed;
- (c.) What it cost on the whole;
- (d.) What other works or repairs in the district of Tellicherry besides the construction of
the office at Anjarakundly were completed during the past official year 1876-77; and
- (e.) The actual cost of each debitable to this department.

No. 1,933.

REFERRED to the Judicial Department.

For Sr. GEORGE,
13th July 1877.

(Signed) E. A. FOORD, Colonel, R.E.,
Secy. to Govt., P.W.D.

Order, 9th January 1878, No. 56.

These papers will be referred to the Inspector-General of Registration for his
opinion, with the remark that it is desirable that he should himself communicate with
the District Engineer about the requirements of his department.

(Signed) D. F. CARMICHAEL,
Chief Secretary.

From the Hon. V. RAMIENGAR, C.S.I., Inspector-General of Registration, to the Chief Secretary to Government, dated Madras, 10th January 1878, No. 6.

In acknowledging the receipt of the Proceedings of Government, dated 9th instant, No. 56, I have the honor to explain that it has always been usual for District Registrars to obtain from District Engineers information as to the expenditure incurred on buildings constructed or repaired for the use of the Registration Department for the purpose of being embodied in their Administration Reports. As the figures thus furnished for Tellicherry from year to year differed from those given in a statement obtained from the Examiner of Public Works Accounts, the Registrar

Official Memorandum from Chief Secretary to Government, No. 985, 5th May 1877.

To Chief Secretary to Government, No. 180, 1st August 1877.

was called upon by this office, with reference to the correspondence noted in the margin, to reconcile the difference, and this must have led him to address the District Engineer.

2. As already intimated to Government, I propose to obtain hereafter direct from the Examiner of Public Works Accounts the requisite information regarding the expenditure on Registration buildings, and this will obviate the necessity of any correspondence on the subject between the District Registrar and District Engineer; but I conceive the former will still be at liberty to address the latter when emergent repairs are needed for existing buildings, or when estimates or plans are required for new ones. It is necessary that Registrars should be allowed to do this if only to avoid delay. No objection is raised, so far as I know, by District Engineers to being addressed by Treasury Deputy Collectors in their capacity of *ex-officio* Registrars on such matters, and I see no reason why Special Registrars should be debarred from doing so where the convenience of the public service is concerned.

COMMUNICATED to the Public Works Department in view to the necessary instructions being issued.

(True Extract.)

(Signed)

D. F. CARMICHAEL,
Chief Secretary.

No. 253.

ORDER THEREON, 28th January 1878, No. 433 W.

ALL ordinary communications to District Engineers in regard to Registration buildings should come through the Head of the Registration Department, but there is no objection to District Registrars communicating their requirements direct in cases of emergency.
