No. 131. From R. F. CHISHOLM, Esq., Consulting Architect to Government, to the Chief Engineer, Public Works Department, Buildings and Roads Branch, dated Chepak, 27th January 1879, No. 524.

I HAVE the honor to report that the Dramatic Society have called my attention to the state of the interior of the auditorium of the Theatre, which is streaked with varying colors owing to the rain-water forcing its way through the clear-story lights. I have inspected the building and find it otherwise in need of repair. I have no funds at my disposal for undertaking work of this nature. Might I suggest that the District Engineer, Presidency Division, be authorised to undertake the necessary repairs?

No. 516.

THE Superintending Engineer, Third Circle, will be so good as to issue instructions that, in communication with the Consulting Architect, the Assistant Engineer in charge of the Presidency Division will take early steps to supply the estimate for the requisite repairs.
