GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

15th April 1879, No. 1,141 W.

Buildings and Roads.
Civil Works.

Read the following paper:—

No 126. Endorsement of the Superintending Engineer, Fourth Circle, dated Coimbatore, 22nd March 1879, No. 861/205.

From Lieutenant-Colonel R. B. KENNEDY, Executive Engineer, Wynad Division, to the Superintending Engineer, Fourth Circle, dated Lakidi, 10th March 1879, No. 353.

I HAVE the honor to forward an estimate, amounting to Rupees 560, for the necessary fittings for the new Munsif's Court at Vyteri duly countersigned by the Civil and Sessions Judge.

2. The rates for woodwork are higher than usual, the reason being that there is so much small work such as rails, &c., in which the work is out of all proportion to the actual measurements.

3. As the new Court is appointed to open on 1st proximo, the Civil and Sessions Judge is very anxious that the work should be treated as an emergent one, and if the necessary funds cannot be allotted this month, I trust that early in April I may be provided with the necessary allotment.

SUBMITTED to Government with reference to their Proceedings in the Judicial Department, No. 2,388, dated 25th November 1878, and communicated with G.O.

One Plan.
" Estimate.
" Specification.

(Public Works Department) No. 4,663 W, dated 7th December 1878, for sanction and the necessary provision of funds at an early date.

(Signed) P. MONTGOMERIE, Major, R.E.,
Supg. Engineer, Fourth Circle.

No. 127. ORDER THEREON, 15th April 1879, No. 1,141 W.

THE estimate* as corrected by the Chief Engineer, amounting to Rupees 400, is sanctioned. An appropriation of funds is made from the Provincial Reserve for 1879-80.

2. The difference (Rupees 160) between the amount of the estimate as submitted† by the Superintending Engineer and as sanctioned, is the cost of articles of furniture, which are not fixtures, and which consequently should not have been included in the estimate, vide Public Works Code X, i, 7.

3. If desired by the Judicial authorities, there is no objection to the entire work being carried out by the Executive Engineer, provided a separate estimate for Rupees 160 is submitted by the Munsif through the District Judge for the sanction of Government in the Judicial Department.

4. The sanction accorded in paragraph 1 of these Proceedings has been registered as Provincial No. 4 B. of 1879-80.

New Muneij's Court at Vytiri, Malabar
District.—Sanctions with remarks an esti-
mate of Rupees 400 for providing fittings
for the —

No. 353.

Wynaad Division Office
Lucknow, 10th March 1879.

From

The Executive Engineer

Wynaad Division

To.

The Superintending Engineer
4th Circle.

Sir,

I have the honor to forward an
estimate amounting to Rs. 560 for the
necessary fittings for the New Muneij's
Court at Vytiri, duly countersigned by the
Civil and Sessions Judge.

The rates for wood work are
higher than usual, the reason being that
there is so much small work such as
rails &c. in which the work is out of all
proportion to the actual measurements.

As the new New Court is appointed
to open on 1st Proximo the Civil and
Sessions Judge is very anxious that the
work should be treated as an urgent one
and if the necessary funds cannot
be allotted this month, I trust that
early in April, I may be provided with

the necessary allotment

I have &c. &c.

15/11/79
1/12/79
1/12/79

Specification for fittings of New Mun-
siff's Court at Wyndham (vide plan accompanying)
Munsiff's Bench. This will consist of a wide
in plat form 10 feet long by 8 feet wide raised
2 feet 8 inches above floor of Court house and
approached by two small flights of 3 steps each
placed at two angles of the plat form - the space
occupied by the steps being taken out of the
plat form. The steps which will be 2 feet
6 inches long will have 1 foot tread and 8
inches rise each - Thus the Bench proper will
be only 10 feet long by 5 feet 6 inches wide
with a landing 4 feet by 2 1/2 feet.

The framework will consist of 17 stand-
ards 2 feet 8 inches high and 4 inches square
cross section - connected longitudinally above
and below by scantlings 4 inches by 2 1/2 inches
and 2 inches by 1 1/2 inches respectively - 10 joists
with cross section 3 inches by 2 inches will be
placed over the former in direction of the length
of the Court House - one midway between every
two of the 4 inch by 2 1/2 inch pieces placed
in the same direction - Planking 1 1/2 inches
thick will be nailed upon this frame work
and will form the floor of the Bench - The
sides will be closed in all round with 3/4
inch planking - Three sides of the Bench
and portions of the remaining side (vide
plan) will be closed in by a railing 3 feet
high - The railing will not be ornamental
but

but will consist of 11 standards of 4 inches square cross section connected above and below by 4 inches by 2 1/2 inches rail pieces with 2 1/2 inches by 1 1/2 inches bars inserted between at 4 inch distances apart - measured centrically. Why 5.0 by 4

Witness Box. This will consist of planed in framework 2 feet 6 inches by 2 feet 6 inches by 9 inches - the framework being composed of 4 uprights 9 inches long by 4 inches square cross section connected longitudinally above and below by scantlings 4 inches by 2 1/2 inches and 2 inches by 1 1/2 inches respectively. Planking on top will be 1 1/2 inches thick and for sides 3/4 inch thick. There will be a railing on one side only of similar pattern to that surrounding the Munsiff's Bench excepting that the height will be greater - viz: 3 1/2 feet.

Prisoners Bar. This will consist of planed in framework 10 feet by 3 feet by 1 foot 3 inches of similar simple design as for Munsiff's Bench - One step will be given to render access to Bar easy - and the bar will be enclosed by a railing 4 feet high of similar pattern to that for Witness Box and Munsiff's Bench - a gateway being provided at one end - Railings 4 feet high will

be put up in form of a bow to separate Court from space allotted to the public. 11 1/4
Pleaders Table - Bench for pleaders & Sutors. These will be of plain - though finished manufacture stability being chiefly considered - For particulars, consult estimates Tables & Chairs, &c. One table and one chair will have to be provided for the Munsiff and another table & chair for the Gomastah - These might be procured ready made from Calicut - an almira for records will also have to be provided.

The whole of the fittings will be of Black wood or Synee - well seasoned. On account of the small size of scantlings in the work the ratio of price of labour to cost of materials will be great - This and the finished nature of the work necessitate rates higher than ordinary.
