GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

21st April 1879, No. 1,182 W.

General.
Establishment.

Read the following paper:—

No. 154. From J. W. RUNDALL, Esq., Acting Superintending Engineer, Fifth Circle, to the Acting Secretary to Government, Public Works Department, dated Trichinopoly, 17th March 1879, No. 2,266.

I HAVE the honor to request that you will be good enough to authorise the Examiner of Public Works Accounts to pass the salary of certain lascars employed under the provision in "Appendix C, Petty Establishment," of the Distribution Statement which accompanied G.O., No. 3,674 W, of the 18th September 1878.

2. The Examiner took exception to their entertainment on the ground that they should not be employed till all the extra hands in other districts have been absorbed, and disallowed their pay pending the sanction of Government which I now solicit.

3. The services of the men have been dispensed with and extra lascars from Tanjore ordered up for duty in my office. I request that their pay for the time they served, amounting to Rupees 54-0-3, may be sanctioned.

4. I take this opportunity of requesting you to be good enough to inform me whether a substitute can be entertained in the place of an individual who is absent on leave without pay.

No. 155. ORDER THEREON, 21st April 1879, No. 1,182 W.

THE Examiner is authorised to pass, as a special case, the sum of Rupees 54-0-3, being the salaries of the lascars employed by the Superintending Engineer, Fifth Circle, in excess of the scale sanctioned in G.O., No. 3,674 W, dated 19th September 1878. It is observed that their services have since been dispensed with.

2. With reference to paragraph 20 of the Government Order quoted above, it should be distinctly understood that no new appointments should be made until the excess hands have been completely absorbed, when competent substitutes may be entertained on the amount of pay forfeited by absentees, i.e., without imposing any extra cost upon the State. It is however within the competency of Superintending Engineers to provide additional aid wherever required within their circles, by transfers from divisions in which the number of hands is in excess of requirements.
