GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT

23rd April 1879, No. 1,203 W.

Buildings and Roads.

Civil Works.

Read the following paper :—

No. 186. Proceedings of the Madras Government in the Revenue Department, dated 2nd April 1879, No. 784.

From Colonel R. H. BEDDOME, Conservator of Forests, to the Acting Secretary to Government, Revenue Department, dated Ootacamund, 13th March 1879, No. 1,622.

With reference to G.O., No. 1,075, of the 16th July of last, paragraph 3, I have the honor to forward a letter* from Mr.

* No. 98, of 30th December 1878. Ferguson enclosing plan, estimate and specification for constructing an office and store-room at Nelambur, and request that the same may receive the sanction of Government, as provision has been made for it in the coming year's budget.

2. I am of opinion that the beams, rafters and reepers may be made of Irul or Karamarda, but that Teak should be used for the doors, windows and smaller fittings, and request sanction that Mr. Ferguson may supply the Teak required for this from his depôts.

ENCLOSURE No. 1.

From J. FERGUSON, Esq., Deputy Conservator of Forests, to the Conservator of Forests, dated Nelambur, 30th December 1878, No. 98.

With reference to G.O., No. 1,075, dated 16th July 1878, and paragraph 3, the regular plan and estimate therein called for is herewith submitted, as hereunder mentioned, viz. :—

List of Estimate No. 293, dated 21st instant.

Specification of do.

Plan, elevation, and section of do.

for new office and store for this division called for in this Office letter, No. 65, dated 6th August 1878.

2. From the estimate and specification it will be observed that junglewood only is estimated for at Rupees 1-8-0 per cubic foot worked and fitted up, and unseasoned timber which cannot be depended on for more than from 7 to 15 years durability; whereas if good Teak is used it will cost under double the price prime cost and fitted up of junglewood and have four to five times the durability, and this effect a great saving in the end.

3. There is on hand upwards of 3,000 cubic feet of Teak first-class quality reserved by the Public Works Department for renewing the road-way of the Karimpaya bridge and may not be wholly required for this purpose. I would therefore suggest that you will be pleased to sanction that a portion of this reserved Teak be used instead of junglewood in the woodwork of the new office and store; if only as an experiment, it will prove useful for future requirements on this point. Early orders are requested.

SANCTIONED as proposed.

(True Extract.)

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

2nd April 1879, No. 784.

No. 22. READ THE FOLLOWING PAPER :—

From Colonel R. H. BEDDOME, Conservator of Forests, to J. H. GARSTIN,
Esq., Acting Secretary to Government, Revenue Department, dated Oota-
camund, 13th March 1879, No. 1,622.

With reference to G.O., No. 1,075, of the 16th of July last, paragraph 3, I have
the honor to forward a letter* from Mr.
* No. 98, of 30th December 1878. Ferguson enclosing plan, estimate and
specification for constructing an office and store-room at Nelambur, and request
that the same may receive the sanction of Government, as provision has been made
for it in the coming year's budget.

2. I am of opinion that the beams, rafters and reapers may be made of Icul
or Karamarda, but that Teak should be used for the doors, windows and smaller
fittings, and request sanction that Mr. Ferguson may supply the Teak required for
this from his depôts.

ENCLOSURE No. 1.

From J. FERGUSON, Esq., Deputy Conservator of Forests, to Colonel R. H. BEDDOME,
Conservator of Forests, dated Nelambur, 30th December 1878, No. 98.

With reference to G.O., No. 1,075, dated 16th July 1878, and paragraph 3, the regular
plan and estimate therein called for is herewith submitted, as hereunder mentioned, viz :—

List of Estimate No. 293, dated 21st instant.

Specification of do.

Plan, elevation, and section of do.

for new office and store for this division called for in this Office letter, No. 65, dated 6th
August 1878.

2. From the estimate and specification it will be observed that junglewood only is
estimated for at Rs. 1-8-0 per cubic foot worked and fitted up, and unseasoned timber which
cannot be depended on for more than from 7 to 15 years durability; whereas if good Teak is
used it will cost under double the price prime cost and fitted up of junglewood and have four
to five times the durability, and this effect a great saving in the end.

3. There is on hand upwards of 3,000 cubic feet of Teak first-class quality reserved by
the Public Works Department for renewing the road-way of the Karimpoya Bridge and may not
be wholly required for this purpose. I would therefore suggest that you will be pleased to sanc-
tion that a portion of this reserved Teak be used instead of junglewood in the woodwork of
the new office and store; if only as an experiment, it will prove useful for future requirements
on this point. Early orders are requested.
