Read the following paper.—

No. 27. From F N THOROWGOOD Esq, MINT OF Superintendent,
Madras Harbour Works, to the Secretary to Government, Public Works
Department, Buildings and Roads, dated Madras, 6th June 1879, No 14 W.

I HAVE the honor to state that I have this day sent in to the Superintendent,
Public Works Stores, an indent for 3,000 tons of English Portland cement.

2. I have supposed that it will be sent out by the Cape at the lower rate of
freight, and if the indent be sanctioned by the Secretary of State as soon after receiving
it as possible, the Cape route will answer the purpose, but the sailing ships with the
first consignment should not leave later than the end of September.

3 I shall send a copy of the indent to Mr. Parkes by the overland mail of the
11th, and I have no doubt he will arrange all preliminaries so that cement may be
shipped very soon after sanction is given.

4 In my letter to Government on the subject of cement (No. 4 W, of 21st
April) I stated that it would be necessary to order 3,000 tons from England on receipt
of the first 1,000 tons of that ordered by telegraph, 21st January 1879. We have
up to this date received 1,200 tons of that consignment, and I therefore make this
application for 3,000 tons more.

5 I have asked the Superintendent, Public Works Stores, to use all expedition
in submitting the indent for Government sanction.

No. 27-A. From Lieutenant W. L. C BADDELFY, R.E, Acting General
Superintendent, Public Works Stores and Workshops, to the Chief Engineer,
