No. 49. Circular from the Government of India in the Public Works Department (Account—General), dated Simla, 14th May 1879, No. 29 P.W.

SCHEDULES OF RATES OF WORKS

Read again—

Public Works Department Circular No 36, dated 12th July 1871
Also Standing Order No 24 of 1873

RESOLUTION —In the orders just read, Examiners of Public Works Accounts were required to prepare half-yearly schedules of rates of work of different kinds as actually executed, for the use and guidance of Executive Engineers and Superintending Engineers, in the preparation and checking of the abstracts of estimates. And it was further ordered that abstracts of the schedules for all the divisions in each province should be sent annually to the Government of India.

2 On a re-consideration of these orders the Government of India has come to the conclusion that the responsibility of recording and revising the rates in force in each division may properly be placed on the several local Governments and Administrations concerned, and is pleased to rule that the abstracts of schedules of rates which were ordered to be sent forward periodically under paragraph 3 of the circular under reference shall no longer be submitted. While foregoing the submission of these returns, which is a natural sequence to placing increased responsibility in regard to works on local Governments and Administrations, the Government of India expects that steps will continue to be taken for the due record of rates in a clear and systematic manner, and that, prior to submitting estimates beyond their powers of sanction to the Government of India, the local authorities concerned will invariably satisfy themselves that the rates upon which such estimates are based are proper. The local authorities should further be able at all times to supply any information that may be needed in respect to the rates in force in any particular locality within their jurisdiction.

It will be the duty of Superintending Engineers and Examiners of Accounts when inspecting divisional offices to see that correct schedules of the rates at which work is actually being carried out are invariably recorded in a complete and satisfactory manner.

The Governments of Madras, Bombay, Bengal, and the North-Western Provinces and Oudh, in the Public Works Department, General, Irrigation, and Railway Branches
 The Government of the Punjab, in the Public Works Department, General and Irrigation Branches
 The Chief Commissioners, Central Provinces, British Burmah, Mysore and Coorg, and Assam
