(Signed) F. N. THOMWOOD,
Superintendent, Madras Harbour Works.

12th June 1879.

No. 135-A. From the same Officer, dated Madras, 19th July 1879, No. 24 W.

I HAVE the honor to submit herewith the statement of expenditure on these works up to the end of June 1879.

2. It will be seen that the cost of construction of the North Pier to 1,710 feet from the point B was estimated at Rupees 8,96,688, whereas the actual cost is shown as Rupees 9,22,629 to 1,706½ feet.

3. The difference between these two amounts is Rupees 25,941, which represents the cost of rubble base for 160 feet instead of the block work. The estimate cost of such a length of rubble base would come to Rupees 31,200, so we may consider that the length of 1,710 feet of the North Pier has been constructed well within the estimate.

Sir

Rec. 30th. I have the honor to forward a Supplementary Statement of works sanctioned but not completed up to the 31st March 1879 in the Hallore Division.

The Estimate for the Sir Cleverpett Black Cotton was shown in the Progress Report of the Hallore Division as slightly exceeded by Rs 17, up to the end of March: and a demand was made for Rs 675 for the Current Official year. Explanation was not given why more money was required: and this has now been given to the effect that the work has been completed, but payment has still to be made to the amount of Rs 675, as the value of work actually executed.

I have the honor to be,
Sir,
Your most obedient Servant

Superintending Engineer 2nd Circle
