31st July 1879, No. 2,006 W.

General Establishment.

Read the following papers:—

No. 215. From J. W. RUNDALL, Esq., Acting Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 26th May 1879, No. 188 M.D.

With reference to your telegram of the 7th April, directing me to hand over to the Master Attendant, Paumben, temporarily the workshop and establishment at that station, I have the honor to request you will arrange to transfer the allotment for work at Paumben, viz.:—

Provincial Rupees 1,300 for maintenance of Tools and Plant.
Special Funds Rupees 6,000 for maintenance of north and sand bank channel.

2. An Overseer has hitherto been kept exclusively at Paumben; if the dredging operations are in future to be carried out entirely by the Marine Department the permanent location of an Overseer at Paumben is unnecessary, and a reduction of one Overseer can be effected.

3. The pay of the workshop establishment at Paumben, Rupees 108 per mensem, is at present drawn by the Executive Engineer, Madura, in his monthly abstract. This establishment should also be transferred to the Marine Department if their charge of the work is to be permanent.

No. 2,076.

Transferred to the Master Attendant, through the Marine Department, for report.

No. 215-A. Endorsement of the Officiating Chief Secretary to Government, Marine Department, dated Ootacamund, 8th July 1879, No. 1,372.

From J. H. TAYLOR, Esq., Lieutenant, R.N.R., Master Attendant, Administrative Department, to the Acting Chief Secretary to Government, Marine Department, dated Madras, 3rd July 1879, No. 5,211.

I have the honor to return Marine reference, No. 1,158 of 7th ultimo, and its enclosures, and to state that I think it will be advantageous to permanently transfer the charge of the workshop establishment, and the works hitherto carried on by the

Public Works Department at Paumben to the Master Attendant there, who has now had considerable experience of the requirements of the place and of the working of the *Albuquerque*, and moreover possesses special qualifications for the appointment, having formerly belonged to the Marine Survey Department and was actually employed on the survey of the place. Countless small jobs are now executed by the Engineer of the *Albuquerque* which used to form large items in the expenses of the dredge. Though I am aware it is not a favorable time to advocate expenditure of any kind, yet in Mr. Baker's case I feel that his salary of Rupees 200 is greatly inadequate for the onerous duties he has to perform, and his peculiar fitness for Paumben will stand in the way of his promotion to a better paid post. In this view of the matter and as there will be considerable saving by the transfer, I would recommend that his salary be raised to Rupees 350, which would place him on the same footing as the officers at Cocanada, Calicut, and Cochin.

2. Having dealt at some length on this matter in my report recorded in Proceedings of Government, Marine Department, No. 312 of 10th ultimo, it is scarcely necessary to go over the same grounds again, and I therefore close this communication with the hope that Government will be pleased, under the exceptional circumstances, to grant the salary asked for which though an increase to Mr. Baker is only a readjustment of the money hitherto spent upon the port.

FORWARDED to the Public Works Department, with reference to endorsement of that Department, No. 2,076, dated 3rd June 1879.

(Signed) C. G. MASTER,
Offg. Chief Secretary.

No. 216. ORDER THEREON, 31st July 1879, No. 2,006 W.

UNDER the circumstances brought to notice in these papers, the Government resolve to transfer the charge of the workshops establishment at Paumben and the works hitherto carried on by the Public Works Department at Paumben, to the Marine Department.

2. The unexpended portion of the allotments provided in this connection in the Provincial and Special Fund Public Works Budgets for 1879-80 will be retransferred to the credit of the Marine Department; similar provision for the future being made in that Department without the intervention of the Public Works Department.

3. The services of the Paumben Overseer should be utilised by the Superintending Engineer, Fifth Circle, until he is required elsewhere.

4. The question of the increase to Mr. Baker's salary will be considered in the Marine Department.

Sir,

I have the honor to return Marine Reference, No. 1158 of 7th ultimo and its enclosures, and to state that I think it will be advantageous to permanently transfer the charge of the Workshop Establishment, and the works hitherto carried on by the Public Works Department at Pamban to the Master Attendant there, who has now had considerable experience of the requirements of the place and of the working of the "Albuquerque" and moreover possesses special qualifications for the appointment, having formerly belonged to the Marine Survey Department and
