Read the following paper :—

No. 38. Endorsement of the Acting Chief Secretary to Government, Financial Department, dated Ootacamund, 7th July 1879, No. 1,381.

From A. COTTERELL TUPP, Esq., Officiating Accountant-General to the Government of Madras, to the Chief Secretary to Government, dated Ootacamund, 5th July 1879, No. 2,641.

With reference to my letter No. 782, dated the 21st of February last, I have the honor to forward the plan and estimate for the construction of a wrought iron strong-room for the Calicut Currency Office which has just been received from the Collector, and to state that I should not have ventured to ask for the sanction of Government for carrying out the work during the present financial pressure had it not been for the urgent need which exists for the early opening of sub-depôts for the storage of the surplus copper and small silver coin, which are now inconveniently lying in almost all the district treasuries; a circumstance which has been often brought to the notice of Government, and more especially in the letters from this office recorded in G. O., No. 2,610, dated the 12th November 1878, Financial, and in G.O., No. 778 W., dated 14th March 1879, Public Works.

2. For reasons stated in the previous correspondence on this subject, I beg to solicit that as a very special case His Grace the Governor in Council may be pleased to direct the Public Works Department to carry out the work with all possible speed, debiting the cost, estimated at Rupees 3,000, to the Civil Department, in the estimates belonging to which a sum of Rupees 5,000 has been included under grant "16, Administration," minor head "Currency Department;" or if Government sees fit the work might be entrusted, under the Collector's supervision, to Messrs. Brunton and Co. of Cochin as previously suggested by the Collector.

TRANSFERRED to the Public Works Department for early disposal.

(Signed) C. G. MASTER,
Acting Chief Secretary.

No. 39. ORDER THEREON, 4th August 1879, No. 2,049 W.

SANCTION is accorded to the immediate execution of the work referred to on the estimate submitted, subject to the following modifications which should receive the Superintending Engineer's attention :—

It is observed that as the estimate provides for a cut granite stone floor, the iron floor and under angle irons appear unnecessary.

Cast iron upright stanchions, either tubes or other section suitable, might be used with economy instead of wrought.

2. The estimate should, if necessary, be revised, but the work need not be delayed on this account.

3. The sanction accorded in paragraph 1 of these Proceedings has been registered as Provincial No. 36 B of 1879-80.

With reference to my letter No. 782
dated the 21st of February last I have
the honor to forward the Plan and Estimate
for the construction of a wrought-iron
strong room for the Calicut Currency
Office which has just been received from
the Collector, and to state that, I should
not have ventured to ask for the sanction
of Government for carrying out the
work during the present financial pres-
sure, had it not been for the urgent
need which exists for the early opening
of sub. depots for the storage of the sur-
plus Copper and Small Silver Coins,
which are now inconveniently lying
in almost all the district treasuries,
a circumstance which has been often
brought to the notice of Government,

=cial and in G.O. N^o 778 ~~W~~ dated 14th
March 1879 Public Works.

2 For reasons stated in the
previous correspondence on this subject,
I beg to solicit that as a very special
case His Grace the Governor in Council
may be pleased to direct the Public
Works Department to carry out the work
with all possible speed, debiting the
cost, estimated at R⁵ 3,000, to the Civil
Department in the Estimates belonging
to which, a sum of R⁵ 5,000 has been in-
cluded under Grant "B Administration"
minor head "Currency Department", or if
Government sees fit, the work might be
entrusted under the Collector's supervision
to Mr. E. Branton B^o of Cochin as previously
suggested by the Collector.
