M. S. S.
Public Works.

Read the following papers:—

No. 106. Proceedings of the Government of Madras in the Military Department, dated 24th April 1879, No. 2,181.

No. 106-A. From Major H. M. VIBART, R.E., Acting Superintending Engineer, Third Circle, to the Chief Engineer, Public Works Department, dated 16th August 1879, No. 4,819.

WITH reference to G.O., Military Department, No. 2,181, dated 24th April 1879, communicated with your No. 1,808, dated 13th May 1879, I have the honor to inform you that the cost of the proposed improvements to the portable latrines of the Native Infantry Regiment at Vellore, as per estimate submitted by the Executive Engineer, amounts to Rupees 680. The saving on the original estimate for constructing the latrine is Rupees 680, no further sanction is therefore necessary.

2. The suggestion to use stone slabs for the trenches has not been adopted as the pointing would soon get scraped out, the filth would accumulate in the joints and be difficult to remove.

3. A separate shed for storing dry earth has been provided for in the estimate, as there is not sufficient space inside the latrine for this purpose.

4. As there are no funds at my disposal to appropriate for this work I request that the necessary funds may be allotted. A sum of Rupees 444 was applied for this work in the statement submitted with this office No. 3,713, dated 24th June 1879, this being the approximate cost of the work as stated in the Quartermaster-General's letter printed with Government Order above quoted.

5. The undermentioned enclosures are forwarded—

To The Chief Engineer

Public Works Department.

Sir,

With reference to G.O. Military Depart-
-ment No 2181 dated 24th April 1879, commu-
-nicated with your No 1908 dated 13th May 1879.

I have the honor to inform you that the cost
of the proposed improvements to the po-
-table latrines of the Native Infantry
Regiment at Vellore as per estimate sub-
-mitted by the Executive Engineer amounts to
Rs 680. The saving on the original estimate
for constructing the latrine is Rs 600. no for-
-ther sanction is therefore necessary.

2. The suggestion to use stone slabs
for the trenches has not been adopted
as the painting would soon get scraped
out, the filth would accumulate in the
joints and be difficult to remove.

3. A separate shed for storing dry
earth has been provided for in the esti-
-mate, as there is not sufficient space
inside the latrine for this purpose.

4. As there are no funds at my disposal
to appropriate for this work, I request

Code 11.

that the necessary funds may be allotted.
A sum of \$444 was applied for this work
in the statement submitted with this office
No. 3718 dated 24th June 1879 - this being the
approximate cost of the work as stated
in the Quarter Master General's letter printed
with the G.O. above quoted.

5. The undermentioned enclosures are
forwarded.
