GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

5th September 1879, No. 2,275 W.

Buildings and Roads.

Civil Works.

Read the following paper :—

No. 25. From Lieutenant W. L. C. BADDELEY, R.E., Acting General Superintendent, Public Works Workshops, to the Deputy Chief Engineer, Public Works Department, dated Madras, 22nd August 1879, No. 2,062 W.

WITH reference to G.O., No. 846 W., dated 20th March 1879, I have the honor to report that the Red Hills water has been laid on in the workshop yard as far as the cistern, which has also been completed with the exception of the plastering, the total cost of the work up to date being as follows :—

										RS.
Piping	...	...	...	...	...	...	...	...	...	1,239
Cistern	...	...	...	...	...	...	...	...	...	1,150
										2,389

2. With reference to the concluding paragraph of the Government Order in question, I have the honor to submit an estimate and plan for extending the water-supply to the neighbourhood of the different buildings, with a view to having a supply of water available in the event of a fire.

3. It will be observed that I have added the cost of three ladders in the estimate, these I propose keeping exclusively for use in the case of fire, to enable a hose to be carried to the windows in the upper story of the main building.

4. In accordance with G.O., No. 1,958 W., dated 25th July 1879, arrangements are being made to procure the necessary hose for the workshops fire engine, and as soon as the hydrants have been put down, I propose drawing up a set of rules to enable the night watchmen to speedily communicate with the Municipality, Grand Arsenal, and the Regiment in the Royapooram Lines; and with this view I have placed myself in communication with the Municipality and Grand Arsenal regarding expeditiously obtaining the use of their fire engines and adapting them to the size of hydrant it is proposed to put down on the workshop yard.

5. With regard to the cost of the works, I would beg to suggest that the charges should be divided equally between the Public Works Stores and Presidency Workshops, with the exception of the item for the cistern, which is of no benefit to the Stores.

No. 26. ORDER THEREON, 5th September 1879, No. 2,275 W.

THE plan and estimate, amounting to Rupees 1,426, for extending the water-supply at the Public Works Workshops to the neighbourhood of the different buildings, with a view to having a supply of water available in the event of a fire, are sanctioned.

2. The division of the cost of the works between the Public Works Stores and Presidency Workshops, as suggested in paragraph 5 of Lieutenant Baddeley's letter, is approved.

3. The sanction accorded in paragraph 1 of these Proceedings has been registered as Provincial No. 45 B of 1879-80.

No. 25-26.

Water supply of the Public Works Work-
shops. - Sanctions plan and estimate for
extending the same to the neighbourhood of
the different buildings.

Madras 22 August 1879

From

The General Superintendent
Public Works Workshops

To

The Deputy Chief Engineer
P.W.D.

Fort St. George

Sir

With reference to G.O. No. 8th N. d/20th March 1879,
I have the honor to report that the Red Hill water has
been laid on in the Workshop yard as far as the Cistern,
which has also been completed with the exception of the
plastering; the total cost of the work up to date being as follows:

Piping	Rs 1239
Cistern	Rs 1150
	2389

2. With reference to the concluding para of the G.O.
in question I have the honor to submit an estimate and
Plan for extending the water supply to the neighbourhood
of the different buildings, with a view to having a supply of
water available in the event of a fire.

3. It will be observed that I have added the cost of
three ladders in the estimate, these I propose keeping exclusively
for use in the case of fire, to enable a hose to be carried
to the windows in the upper story of the main building.

4. In accordance with G.O. 1958 N. d/25th July 1879
arrangements are being made to procure the necessary hose
for the Workshops Fire Engine, and as soon as the Hydrants
have been put down I propose drawing up a set of rules
to enable the night watchmen to speedily communicate with
the Municipality Grand Arsenal, and the Regiment in the
Rajapuram Lines, and with this view I have placed myself in
communication with the Municipality and Grand Arsenal
regarding

regarding expeditiously obtaining the use of their Fine Engines
and adapting them to the size of Hydrant it is proposed
to put down in the Workshop yard.

5 With regard to the cost of the works I would beg to
suggest that the charges should be divided equally between
the Ph Store and Presidency Workshops with the exception
of the item for the Cistern which is of no benefit to the
Store.

I have the honor to be

Sir

Your most obedient servant.
