## Extract from Schedule of Works required by the Telegraph Department during 1880/81.—

| Province | Division of Public Works | No. of Work | Name and Locality of proposed Work | Amount of Estimate | Amount of any Estimate not expended up to 31. 3. 80. | Amount required during ensuing financial years.— | Remarks.— |
|---|---|---|---|---|---|---|---|
| Madras | Consulting Architect | | Telegraph Office, Madras | 25/192 | 10,000 | 10,000.— | The urgency of this work has been frequently shewn and admitted & I need only now refer Government to my No. 10 A.G. dated 3rd June 1879. An assignment of Rs 10,000. was made for the combined Post and Telegraph office, vide P. W. D.— No. 191 A.G. dated 14th May 1879, but for financial reasons the grant has been reduced to Rs 10,000— See P. W. D. No. 296 A.G. of the 12th July 1879.— I have asked for 1 lakh for the work during next year which, considering its urgency, will I hope, be allowed.— |
| Do. | Nilgiri District | | Telegraph office Ootacamund.— | " | " | 10,000 | A brief history of the necessity for this work was given in my Schedule for 1879/80. and it was explained that the arrangements for accommodating the Telegraph office and establishment at Ootacamund are ~~were~~ unsatisfactory and not objectionable. A grant of Rs 7000. was made in P. W. D. No. 191 A.G. dated 14th May 1879, but withdrawn on financial grounds in order conveyed in No. 296 A.G. of the 12th July 1879. A grant of Rs 10,000 is again applied for, and I trust that, if possible an allotment may be made in 1880/81.— |

OFFICE OF THE COMMR. OF SALT REVENUE,
Madras,
Dated September 14, 1879.

From

H. W. BLISS, Esq.,
*Commissioner of Salt Revenue,*

To Colonel R. H. Sankey R.E.
Secretary to Government,
Public Works Department,

SIR,

With reference to G.O. November 19, 1878, No. 4403 W and your Office Memorandum No. 2880 dated September 3, 1879, I have the honour to forward herewith a list of Salt Works proposed to be executed by the Public Works Department in 1880-81.

The statement is incomplete as columns 7 and 8 could not be properly filled. As no reply has been received from you to my letter No. 3962 dated May 6, 1879, regarding the outlay on Salt Works in 1879-80 the former column has been left blank, and column 8 could only be partially filled up as only one Superintending Engineer (of the 3rd circle) has furnished me with the requisite information though all the Superintending Engineers were requested to do so by the 1st of August. Under these circumstances the

the estimated outlay in 1880-81 is to some extent conjectural though there can be no doubt that the whole grant applied for can be very profitably expended on these and other works which are urgently required by the Department.

I have the honour to be,
Sir,

So ff.

herewith revised schedu
the items have been
divided as far as
possible into classes
A and B.
In the case of the
last works it has
already been remarked
that nothing has been
said about the
urgency of them, but
lectured on their gene
budget, and as the
last is a framing
department year whic
it is hoped to devise
such clearance, it appe
not unreasonable
count all the works
which have not been
struck out by this
year or class A as
& It is difficult
basis of lectures to the
urgency of such works

as compared with
many Military works which
have been struck out
but practically each
branch must be
considered separately.
You will see that Sir
Frere has ordered all
Gunpowder items to
be struck out. Some
make the last Military
Excepted.
As to these Military
works. Sir Hodges favour
remarks have been entered
(item No ) as a B work.
Some remarks being made in
the last Column; and as
Sir Frere's note about the
Gunpowder works led upon
reference to the inclusion of
an Unsanctioned work, it
has been presumed that he
had in view only item No.
19 (in the rough schedule,) and
not items 19–25 inclusive.
Only item 19 has therefore
been Entered in the revised

Schedule.
Item No. 2 (revised schedule)
[No 1 (rough schedule)] was
said to have been
recommended by the Mily.
Authorities for execution
when funds were
available; from which
it might be inferred
that it was not a
work of great urgency.
However, Sir Frere
& Mr. the Lieut C. both
left it in, and as it
was, if a B work,
had no right to be
in the Schedule, it
seemed better to regard
it as an A work.

If you approve the
Schedule, will you please
despatch it with the
letter? An office Copy
for the press will be
made tomorrow, and
proofs will be
sent to the Sec's about
the Early Submission

of the vote for the
Legislature Powder work,
& the Municipal Loans.
Remarks. A slight
alteration in the 9th will also be
required.

Note

Of the 31 items in the schedule, it is understood that Nos. 1, 2, 5, 6, 7, 8, 10, 11, 12, 13, 14, 15, 16, 17, 19, 20, 21, 22, 23, 24, 25, 26, are to be omitted with reference to the previous letter, and Nos. 3, 4, 9, 18, 27, 29, 31 with reference to your remarks, which are agreed to by the Dept. — The substituting have been sanctioned for the Nos. 16 and 28 appear, you will see, in both lists. Nos. 18, 28, 30, therefore alone remain, and the amount value Major Pirie in the Island from £ 5,93.140 to £ 13,610

It can hardly be hoped that this will, by the time the Local Legislature returns the Major Pirie, and Port Pirie will be dealt with before the

therefore hold good

As regards Salt demands

it is understood that

Nos. 7, 8, 9, 10, 13, 15, 18, 19, 20 and 22, are to be omitted, with reference to your remarks, as stocks have not been ascertained.

Nos. 11, 12, 14, 16, 17, and 21, will stand. The amount of these is Rs. 17,680, and that of the grant for these works Rs. 10,490.

The salt demands will thus be :—

| | Rs. |
|---|---|
| Major Works | 17,680 |
| Minor Works | 10,490 |
| Repairs | 3,970 |
| | = 32,140 |
| Establishment | 8,035 |
| Tools & Plant | 803 |
| Total | = 40,978 |

against the original figure—

Rs. 89,250.

As regards Miscellaneous

Public Improvements demands

both the entries must be omitted with reference to your remarks, Tott. not having

as they stand. But as the Govt. note that the expenditure under the two last heads "of the latest extent of more or less required every year" it may be left to Govt. if it is presumed, to reduce the grants - if they think fit

(enclosed)
The totals under subsidiary
will then stand as follows :—

| | Rs |
|---|---|
| Major Works | 13,610 |
| Minor Works | 1,50,000 |
| Repairs | 2,50,000 |
| | = 4,13,610 |
| Establishment | 1,03,402 |
| Tools & Plant | 10,340 |
| Total | = 5,27,352 |

against the original figure—
Rs. 1366,253.

As regards Postal & Telegraph buildings, the same remarks will be omitted in all cases, the Govt. note observe that Govt. must decide whether to give what is asked for, or a part of it. The totals of Rs. 104231 for Postal buildings and Rs. 1,25,000 for Telegraph buildings

been sanctioned.

The totals will therefore be :—

| | £. |
|---|---|
| Major Works ... | nil |
| Minor Works ... | 3,500 |
| Repairs ... | 2,000 |
| | = 4,500 |
| Establishment ... | 1,125 |
| Tools & Plant ... | 112 |
| Total = | 5,737 |

against the original figures - £. 109,446.

The grand total under all heads & services will, with these reductions, amount to £. 8,31,298

against the former amount of :- 17,22,180,

a saving of £. 8,90,882 having been effected.

His Grace the Governor

For orders

I have personally gone over the items of the Schedule of Military works (Materials) with H.E. the C in C who as will be observed has placed some pencil observations against works Nos 15, 16, 17, 27 & 31, and with reference to these I would now solicit His Grace's final instructions

As regards No 15 H.Q. is not absolutely necessary; so far as concerns the Jamkhed line only remains that these now also may be left in abeyance a matter that can be provided for from Reserves

What is all that is necessary to quite right Sir
P.S.D.

Of the working of the Arm raised in the 2/13 Lt. Infantry I am not aware but there also might possibly be arranged for in the same way

No 16 H.E. here observes that "if the "detachment is kept "at Malliapooram "proper buildings are "needed" - If nations are to take the place of Europeans proper shelter with stable be needed, but in any case it may be desirable to keep in the item?

No 17 Sir Neville observes "We need accommodation "for the invalids sent "to this depôt altogether "to existing buildings "may suffice, and "Quarters for the

No 27. I submit that my remarks - The £ 1 conversion rate quoted seems may only be that there may only be a few of them - I understand that all European contracts are damaged by a flood -

Struck out H.E. Hall

"Appointments in the "present year"

In which case I would beg to suggest that 2000 be kept in the Budget instead of the £ 2 Lakhs as entered

Regarding No 27 the remarks "it will "be observed in Palamcotta "if reduced to a small "the Quarters may not "be needed" - Under the contingency contemplated may the item be struck out?

Agreed No 31 H.E. remarks "with a Refr "and a wing proposed "for Commissariat - If "Sanctioned this work "may not be needed"

Under these circumstances I would wish to know if the item is to stand

Generally as regards the Appendix of this

Budget

I would if permitted adopt the arrangement framed by the GOI by showing as (A) works already sanctioned which have a currency (B) doubtful currency, and (C) those which are to be entirely excluded from the year's Budget. This will simplify the passing of orders by Govt. of India

As regards works which are recognized as urgent but for which the Estimates are "awaited" I would if allowed still retain them in this Preliminary Schedule, merely striking them out for the final Budget. With the least number of eliminations and orders there should be no difficulty in having Estimates framed & sanctioned for all the items for the final Budget

Should not this be put through separately (under A except the Madras portion) under powers not transmitted

The annexed papers file connected with the Schedule of Proposal sanctioned in 1880-81 with the Govt of India note thereon is forwarded for the observations of H.E. the C in C

As the schedules should previously have the command I would solicit the favour of the matter coming to Earliest attention of H.E. and if desired I should be happy to wait on him personally and attend any

cleared Explanation

It will be observed that in addition to the works which are not considered of urgent necessity by H.Q. the Government No 3, 4, 9, 16, 26, 27 29 & 31 would eventually also have to be struck out - if on framing the final Budget they are undertaken by definite designs and Sanction but I would ask on this account alone

Strike them out now if H.E. the C in C wishes to retain them - It would however have the Works annexed

much trouble if any of them as many not be in H.E.'s opinion of pressing necessity were now served on

Please read the annexed Note with its view future remarks

I have all along pointed out that there has been a radical defect in controlling estimates to the detriment of Budgets by alteration of items in which there is no sanctioned design and Estimate. This is the fruitful source of all subsequent complications, and lies at the root of most of the trouble with the Examiner's Office, with the

Auditor's running entries in the "Objects & item Statements"

I trust the Government will support me in now ruling absolutely that no item shall find place in a Budget in which there is no sanctioned design and Estimate, and that responsibility to this be rigidly enforced.

estimates for them are "remitted". They may be allowed to remain on the understanding that the estimates will be sanctioned in time for provision in the preliminary review of the Budget, but it is doubtful whether the Govt. of India will agree to this having in view their orders against providing funds for unsanctioned works. Then these items are set down for expenditure no funds are available. If the demands are to be restricted to actuals requirements these may be omitted altogether in this year's schedule.

I think this comes to a contrary rule — Still my contention remains any blame to the Govt —

if however my remarks + circulars are carried out Govt of India will fall out /Bk

The demands for minor works and repairs may stand as expenditure to the extent entered in more or less fragmentary way year.

When it has been finally decided to entrust the execution of ordinary repairs to the Depts. concerned; provision for Military repairs in the P. W. Budget will be correspondingly reduced.
