GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

14th October 1879, No. 2,592 W.

General.
Establishment.

Read the following paper:—

No. 31. From the Superintending Engineer, Third Circle, dated 23rd September 1879, No. 5,544.

No. 32. ORDER THEREON, 14th October 1879, No. 2,592 W.

THE Government resolve to sanction experimentally the establishment shown in the annexed statement.

This sanction will hold good for six months.

2. In G.O., No. 2,272-A W., of the 4th September 1879, toll establishments were sanctioned provisionally. On reconsideration His Grace the Governor in Council is of opinion that the Madras station establishment is stronger than it need be, and one of the two clerks should be employed in the Executive Engineer's Office, at any rate for the present. The services of two of the seven lascars should also be elsewhere utilised. The monthly cost of the toll establishment will thus be reduced to Rs. 942.

3. The sanction accorded in paragraph 1 has been registered as Provincial No. 7 W. of 1879-80.

From

The Superintending Engineer

To
The Chief Engineer
Public Works Department.

Sir,

With reference to your Memorandum N^o 2658, dated 1st August 1879, I have the honor to inform you that, after my inspection of the whole canal which I have recently made and after due consideration of the matter, I am of opinion that the Establishment proposed for the Canal in Colonel Ford's (the late Chief Engineer's) letter to the Board of Revenue N^o 1226 of 9th March 1878 is not more than is essentially necessary for the due supervision of the large amount of work which must always be in progress on the Canal in connection with its maintenance and I would add, that any establishment less than the scale above alluded to would prove inadequate.

I have the honor to be
Sir

Your most obedient servant
Herbert Charles Taylor Esq
Asst. Secy to Govt 3^d Civil.

 Engineer he should know
 that the Establishment is
 to be so much reduced?
 At present the Canal is
 in charge of a Sub
 Engineer, supervised by
 the Sup^s Engr.

His plan has not specified
 the reductions which he
 thinks might be made
 in the Engineering Establishment
 Perhaps 1 less might be
 struck out of the 3 proposed
 for the Engrs. Establishment
 and 1 less may be
 allowed to each of
 the first Engineers.

The clerk who is to be
 struck out of the tall
