Enclosures. 5

SIR,

With reference to your endorsement dd. 24th October 1878. No. 4394 on Memo from the Under Secretary to Government P.W.D. dd. 23d idem No. 724T. I have the honor to state that the P.W. Stores imported in iron from England during 1877-78 as will be seen from the Statement furnished by this Office.

		T.	cwt.	2.	lb
"Frigate"	June /77	44	„	„	„
"Tynedale"	Feby /78	10	1	2	19.
Do	March /78	„	14	1	26.
"Zenobia"	„ /78	82	16	2	22.
		137	12	3	11

2 The Workshop imported iron and from the import summaries noted in the Margin furnished to the Collector of Sea Customs the total quantity of iron imported during the year 1877-78. amounts to 137 tons after deducting for short deliveries. I cannot reconcile the figures given by the Collector of Sea Customs in the Statement furnished by the Board of Revenue, with those given by me, unless it be that the Collector has taken into account the Article marginally noted received during the year, and admitting even this, there is still a difference of about 25 cwt between the statements.

3 I may here note that it is incorrect to credit "Public Works"

"Public Works" with Stores obtained by the Presidency Workshops which do work for every Department of Government as well as for private parties. Import by "P.W. Stores" belongs to Public Works proper.

4 The five original papers received, are herewith returned.—

I have the honor to be
Sir
Your most obedient Servant
J. W. [illegible] Ex. Engineer

No. 104

Proceedings of the Board of Revenue
Dated 16th January 1879.
Read the following:

No. 2218.

From.
R. J. Melville Esqre
Collector of Sea Customs
Madras.

To.
C. A. Galton Esquire
Asst. Secretary to the Board of Revenue
Madras.

Sir,

With reference to Board's Proceedings dated 21st Novr. 1878 Mis No. 11882, I have the honor to report that the difference between the total quantity of iron imported by the Genl. Supdt. Pub: Works Workshops and Stores, as reported by him in his letter to the District Engineer, Presidency dated 1st Novr. 1878 No. 3001, and as reported in the statement furnished from this office d/ 29 May 1878, is 10 Tons 6 Cwt and 17 lbs. The figures given in the statement furnished from this office were taken from the Bills of Entry received from the Superintendent Pub: Works Workshops and stores. The particulars are shown below in comparison with those given by the Superintendent in his letter to the District

	Tons	Cwt.	lbs
As reported in this Office statement	147	19	–
As reported by the Genl. Supdt. P.W. Workshops & Stores to the Dt. Engineer	137	12	95
Difference	10	6	17

Engineer

Engineer, Presidency, above referred to.

2\.

	As per Bills of Entry.			As per letter of Supdt. to District Engineer.		
	Tons	Cwt.	lb	Tons	Cwt.	lb
S.S. "Australia"	10	4	87	〃	〃	〃
〃 "Reigate"	44	〃	70	44	〃	〃
〃 "Tynedale"	10	1	75	10	1	75
〃 — Do —	〃	14	54	〃	14	54
〃 "Zenobia"	82	16	78	82	16	78
Total	147	18	28	137	12	95
or in round figures	147	19	〃			

3. From this Comparison it will appear that the whole of the iron imported by the Steamer "Australia" and 70 lb out of the quantity imported by the Steamer "Reigate" have been omitted in the figures reported by the General Superintendent Pub: Works Workshops and Stores to the District Engineer.

4. The Bill of Entry for the iron imported by the Steamer "Australia" was received from the General Superintendent Pub: Works Workshops and Stores on the 10 April 1877 with his docket dated 9th Idem No. 84, after the accounts for March 1877 had been closed. The Bill of Entry ~~was taken~~ was taken into the accounts of this office for April 1877 or to the offl. year 1877-78. The General Superintendent Pub. Works Workshops and Stores appears to treat the import as belonging to the official year 1876-77. This and the omission of 70 lb in the imports by the Steamer "Reigate" account for the discrepancy pointed out by the Board.

5. The Enclosures to the Board's Proceedings are herewith returned.
