Sir

With reference to your Memo No.
1231 of 3rd Instant Communicating
the Chief Engineer's Memo No. 457 of 25th
Ultimo containing the favorable remarks
that you are unwilling to lose my service,
and intimating that my application
cannot therefore be supported by
either you or the Chief Engineer & that under
the circumstances it would be well for
me to reconsider the matter. I have the
honor to state that chief reasons for
my applying to retire under the provisions
of Government Resolution published in
the Fort Saint George Gazette of 19th
August 1879 are as follows.

1st Considering the state of my health,
since of late, I apprehend that in
future I will not be able to discharge
my field and Office duties

duties efficiently and conscientiously.

2nd. My wife has been for the last seven years suffering from Asthma which she had at this place and every possible medicine used is of no avail; but during the 5 months stay at Madras when I was on 6 months leave lately, she had relief and on my return here she had relapse of the illness.

I beseech these circumstances I solicit you will be good enough to support my application.

3 If on the other hand you are unwilling to do so I shall most willingly remain in service: but I solicit you will be pleased to obtain the sanction of Government that in the event of my future health becoming so worse as to compel me to retire may be allowed the concessions of the Government Resolution above alluded to.

I have the honor to be
Sir

Your most obedient servant

Sir,

Dowlaiswaram 22 Nov^r 1879.

I am in receipt of your No. 52
of the 16th Instant. Copy of which
I will forward to Government. I
must however point out to you
that the bonus and extra pension
granted by the Government Reso-
lution published in the Fort St. George
Gazette of the 19th August
were, in my opinion, intended to
enable Government to reduce the
Department to the extent they
wished with the minimum of
hardship to individuals and are
not claimable as a right by
all members of the Department
after the desired limit of
reduction is reached.
