Local Funds—Reports.

Read the following paper :—

No. 106. *Proceedings of the Board of Revenue, dated 6th August 1879, No. 2237.*
ABSTRACT.—Submitting to Government the Local Fund Report of the Chatrapur Circle, Ganjam District, for 1878-79.

No. 107. ORDER THEREON, 29th November 1879, No. 2239.
The receipts of the Chatrapur Circle during 1878-79 amounted to Rs. 1,99,241, against Rs. 1,26,740 estimated and Rs. 1,18,890 actual of 1877-78. The increase was chiefly under Land-cess, Public Works Refunds, Tolls and Fishery Rents; and was partly counterbalanced by the withdrawal of the annual grant of Rs. 20,000, on the equalization of the price of salt throughout the Presidency. The collections from Land-cess amounted to Rs. 1,31,218, against Rs. 98,000 estimated and Rs. 80,529 realised in 1877-78. The increase was due to punctual collections and to realisation of arrears. It should, however, have been stated what the outstandings were at the close of the year and to what years they appertain, with reference to the orders of Government marginally noted. Tolls were levied for the first time and the amount anticipated owing to facilities for evasion afforded by the nature of the toll-bar sites. The Government note that the Local Board are concerting measures to remedy the defect. The large sum of Rs. 50,417 shown as refunds of expenditure is explained as a nominal credit due to the reorganization of the Public Works Establishments; the abolition of the Berham-pore range having led to a transfer of the expenditure incurred in that range to the Ganjam Division and to the credit and debit of the allotments surrendered.

G.O., 15th October 1878, No. 1839, paragraph 8.
G.O., 19th July 1879, No. 1376.

receipts amounted to hardly one-fourth of the total receipts of the year. The Government note that for evasion afforded by the nature of the toll-bar sites. The Government note that the Local Board are concerting measures to remedy the defect. The large sum of Rs. 50,417 shown as refunds of expenditure is explained as a nominal credit due to the reorganization of the Public Works Establishments; the abolition of the Berham-pore range having led to a transfer of the expenditure incurred in that range to the Ganjam Division and to the credit and debit of the allotments surrendered.

2. The expenditure as far as now known amounted to Rs. 1,58,953, against Rs. 1,36,800 estimated. Thus there accrued a balance at the close of the year of Rs. 30,958-10-1.

3. The expenditure on Public Works is fully detailed in the report. It amounted to Rs. 71,418, against an allotment of Rs. 93,436. The short expenditure is satisfactorily explained. The roads were not in good order owing to damages caused by the exceptionally heavy rains in November and December.

5. No grants were assigned from Provincial ...
by the Government of India to this circle in ...
of salt in the Ganjam and Itahapore salt stations

50. The work of the inspecting schoolmaster was in general satisfactory. The particulars of the other items of educational expenditure are as follows:—

Items.	Actual Expenditure.	Budget Allotment	Remarks.
(b.) Salaries of the combined system and pure Local Fund schoolmasters.	RS. 7,916	RS. 8,550	The decrease in actuals as compared with the budget grant was owing to vacancies among the combined system schoolmasters, and to the full amount sanctioned for the Pongoli schoolmaster's pay not having been disbursed.
(c.) Payments for results to do.	3,765	4,000	The decrease in this item was due to the fact that some schools which were examined in the year under report were not paid grants within the year as their bills were not received till after the close of the year.
(d.) Pay of Clerks and Servants.	48	40	The increase was due to the payment of famine batta and to the higher rate of pay (Rs. 5 instead of Rs. 3 per mensem) sanctioned for the peon of the Mojjagada school.
(e.) Miscellaneous and Contingencies.	12	100	Contingent charges of the two Local Fund schools, Pongoli and Mojjagada. The budget allotment was excessive.
(f.) Payment of results grants to grant-in-aid schools.	856	1,000	The decrease in this item as compared with the budget grant was due because all the schools were not examined. Nearly half of the number are yet to be examined.
(g.) Purchase of books.	430	500	} The decrease is due to a small sale of books.
(h.) Commission to Colporteurs.	12	90	
(i.) Miscellaneous ...	70	...	

51. There was only one school, that of Mojjagada, which was solely maintained from Local Funds at the close of the year under notice.

52. The number of combined system schools that were in existence at the end of the year was 105. The following table shows the number, attendance, fees, and cost of the purely Local Fund and of the combined system schools in the Circle during 1878-79, as required in paragraph 6 of the Revenue Board's Circular Memorandum, No. 537, dated 31st May 1878:—

Schools.	SALARY SCHOOLS.		COMBINED SYSTEM SCHOOLS.		Total.	ATTENDANCE OF PUPILS.		COST OF		FEES COLLECTED.		Rates of Fees.
	Old.	New.	Old.	New.		Salary Schools.	Combined System Schools.	Salary Schools.	Combined System Schools.	Salary Schools.	Combined System Schools.	
Higher or Middle Class Schools ...	NO.	NO.	NO.	NO.	NO.	NO.	NO.	RS.	RS.	RS.	RS.	RS.
Lower Class Schools ...	...	...	...	...	...	...	...	...	...	...	...	...
	1	...	105	...	106	39	2,332	227	11,514	15	...	4
										12	...	2
										8	...	1
										7	...	
										and 6	...	

53. The Pongoli school was in existence for a part of the year and was abolished in July 1878, as it did not succeed. Another school at Mojjagada has taken its place and is doing well.

The attendance was 39. It is under consideration to employ an additional teacher on Rs. 8 in this school.

54. The past year's experience shows that the combined system works well in this Circle. The uncertificated men of the combined system schools are gradually being superseded by the 5th grade men of the Russelkonda Normal class.

55. GRANT III—SANITATION, MEDICAL SERVICES, AND PUBLIC AND CHARITABLE INSTITUTIONS.—The expenditure under Grant III is compared below with the actuals of the previous year:—

	Actuals for 1878-79.	Budget for 1878-79.	Actuals for 1877-78.
(a.) Hospitals and Dispensaries ...	RS. 6,777	RS. 6,610	RS. 5,068
(b.) Vaccination ...	3,908	4,300	3,587
(c.) Sanitation ...	5,099	7,000	5,196
(d.) Bungalows ...	560	1,000	408
(e.) Contributions ...	1,100	1,100	800
(f.) Miscellaneous ...	1,432	1,000	657
Total ...	18,876	21,010	15,716

56. The charges on account of (a) Hospitals and Dispensaries exceeded the grant by Rs. 167, which was the result of an increase in the item of "Medicines and Apparatus" and a decrease in all other items.

57. The decrease in the pay of Medical Subordinates was due to the transfer of the 2nd-class Assistant Apothecary from the charge of the Ganjam Dispensary and the appointment of a 1st-class Hospital Assistant in his stead.

58. There were three Dispensaries maintained by the Local Fund Board during the year under report: (1) at Gopalpur under charge of Mr. Collins, a 2nd-class Assistant Apothecary; the (2nd) at Ganjam under the charge of 2nd-class Assistant Apothecary Mr. Henderson for some time and afterwards under the charge of 1st-class Hospital Assistant C. Appiah; and the (3rd) at Aska under Pensioned Assistant Apothecary Mr. A. Snaize. In the three Dispensaries in and out patients were treated but late in the year; the Local Fund Board resolved to restrict the aid of these institutions to out-door patients only, and ordered the Medical Officers to itinerate for a fortnight in each month. The proposal is now before the Board of Revenue—vide President's letter, No. 1,533, dated 16th May 1879.

59. The following table shows the working of these institutions during the year:—

Dispensaries.	IN-PATIENTS.					OUT-PATIENTS.				
	Number in 1877-78.	Number in 1878-79.	Discharged.	Died.	Remained.	Number in 1877-78.	Number in 1878-79.	Discharged.	Died.	Remained.
Gopalpur ...	25	15	13	2	...	1,923	2,400	2,346	12	43
Ganjam ...	19	7	4	3	...	8,263	2,677	2,620	7	50
Aska ...	11	5	3	1	1	1,114	1,249	1,203	85	11
Total ...	55	27	20	6	1	6,299	6,326	6,169	54	103

60. On the whole there was an increase in the number of out-door patients. The decrease in the Ganjam Dispensary was due to its having been closed for a time after the transfer of Mr. Henderson from this district. The officers in charge of these institutions have generally given satisfaction. Their reports are submitted.

61. The increase in the cost of "Medicines and Surgical Apparatus" is due to the promptitude with which the value of medicines supplied to Local Fund Dispensaries are now advised for adjustment. In the preceding years the value of some medicines supplied was not intimated till after the close of the year.

62. (b) Vaccination.—The following table shows the vaccination staff with the amount of salary, &c., paid to, and the amount of work done by, them during 1878-79:—

Staff.	Salary per Mensem.	AMOUNT DRAWN IN 1878-79.			Number of Persons vaccinated.	Number of Successful Cases.	Cost per Case.
		Salary.	Famine Batta.	Contingencies.			
1st-class Deputy Inspector...	Rs. 70	3,618	93	197	8,885	8,114	7
Four 1st-class Vaccinators	18 each						
Ten 2nd-class do.	15 do.						
Two Probationers	10 do.						
One Peon	5 do.						
	6						

63. Vaccination is increasing slowly but steadily. The prejudices of the people are gradually disappearing. During the year two probationers were appointed on a salary of Rs. 5 each. Hence the increase in the pay of the staff.

64. SANITATION.—The expenditure under this head fell short of the budget allotment in consequence of the Government Order for the reduction of expenditure.

65. The particulars of the sanitary expenditure were as follows:—

Items.	Budget Allotment.	Actual Expenditure.
	RS.	RS.
1. Cleansing of tanks and wells	1,150	168
2. Improvement of village-sites	1,500	1,308
3. Scavenging of villages and towns	3,380	3,578
4. Other sanitary improvements	970	45
Total	7,000	5,099

66. CLEANSING OF TANKS AND WELLS.—A drinking-water tank in Jalandra was cleared of silt at a cost of Rs. 168. Rs. 200 were advanced for completing the repairs of the tank at Chatterpore and Rs. 130 for repairs to another drinking-water tank in the village of Uppalaputti, near Gopalpur. These amounts are shown under "Advances Recoverable" agreeably to paragraph 5 of the Board's Circular Memorandum, dated 5th May 1879, No. 577.

67. IMPROVING VILLAGE-SITES.—Rs. 500 were spent in improving the drainage of the town of Mandasa, Rs. 400 paid for the completion of town roads in Purushottapore, Rs. 358 for cut-stone drains at Itchapore, and Rs. 50 for roads in that town, thus making an aggregating sum of Rs. 1,308.

68. SCAVENGERING OF TOWNS AND VILLAGES.—The Local Fund Board maintained the following conservancy establishment for the cleansing of the principal towns during the year:—

Locality.	No. of Scavengers employed.	Amount of Expenditure incurred on account of Pay, Famine Batta, and Contingencies.
		RS.
1. At Chatterpore	9	368
2. " Ganjam	7	316
3. " Russelkonda	10	394
4. " Itchapore	7	313
5. " Aska	8	321
6. " Surada	6	236
7. " Sompet	6	237
8. " Rumbah	3	147
9. " Sonnapore	2	97
10. " Gopalpur	11	490
11. " Burwah	5	194
12. " Suria	3	145
13. " Purushottapore	8	320
Total	85	3,578

69. (d). BUNGALOWS.—The number of travellers' bungalows maintained during the year were 13 against 7 of the previous year. The additions during the year were the travellers' bungalows at Ganjam, Purushottapore, Russelkonda, and Gangupur, and the native travellers' shed at Golantra. The first four were Public Works Department rest-sheds taken over by the Local Fund Board and converted into 2nd Class Bungalows where fees are levied at the prescribed rates. The fifth was the shed constructed by the Local Fund Board for native travellers. A sweeper on Rs. 3 per mensem was entertained to look after this shed, but no fees are levied. Some of the bungalows have lately been supplied with furniture and more will shortly be supplied. The statement given below exhibits the receipts and expenditure of each bungalow and the number of travellers that halted at each during the year:—

Names of Bungalows.	Amount of Fees collected in each.	Number of Travellers who halted.	EXPENDITURE.		Condition of the Bungalows.
			Works.	Establishment and Contingencies.	
	RS.	NO.	RS.	RS.	
Injelli	17	22	32	107	In fair order.
Itchapore	64	55	...	74	
Canchili	43	46	...	74	
Haripore	15	21	13	124	
Mojjagada	...	15	56	44	
Gopalpur	40	20	...	61	
Ganjam	21	3	18	14	
Purushottapore	6	10	...	14	
Gangupur	6	2	...	18	
Russelkonda	1	...	...	18	
Golantra	...	...	...	12	
Total	213	194	119	560	

70. MISCELLANEOUS.—This item comprises the expenditure incurred on account of lunatics under treatment in the Asylum at Vizagapatam. The charges on this account show an increase over the budget allotment and the actuals of the previous year, because the Local Fund Board had to reimburse to the Berhampore Municipality a sum of Rs. 573-8-3, being the charges of maintenance since 1876 of a lunatic of this circle.

71. CONTRIBUTION.—This consists of (1) Rs. 300 paid to Dr. Hargreaves, Surgeon at Chatterpore, for the purchase and distribution of medicines to the public, and (2) Rs. 800 paid to the Berhampore Municipal Dispensary. These are in accordance with the budget.

72. GRANT IV.—COST OF GENERAL MANAGEMENT INCLUDING CONTINGENCIES.—The expenditure under Grant IV is as follows:—

Items.	Actuals of 1878-79.	Budget of 1878-79.	Actuals of 1877-78.
	RS.	RS.	RS.
(a). Contribution for the Controlling Establishments in the Presidency	153	460	430
(b). Contribution for the Controlling Establishment in the Collector's office	677	520	600
(c). Establishment in the Local Fund Board's office	295	300	229
(d). Contingencies	97	100	79
(e). Travelling allowance of Non-Official Members	103	500	180
(f). Miscellaneous, appropriation, refunds, &c.	...	...	4,021
Total	1,325	1,880	5,459

73. The charge for the controlling establishments at the Presidency shows a decrease as compared with the budget grant. This was owing to the non-receipt of advices from the Accountant-General for the adjustment of the amount.

Annual Concise Medical Report of the General

ADMISSIONS of out-patients were nearly as many caused more by starvation and by a very poor way cases of swellings were treated as in-patients. As as in-patients.

Principal diseases among the out-patients were swellings, eczema, sore-eyes, burns, scaldings, and neglect of their patients. Several cases of venereal and three cases of leprosy were under treatment and two cases of dog-bite, two cases of mad jackal-bite, two cases had their scrotum ripped by the butt of a cane, chiefly of boys of about twelve to fourteen years of age. One case of a boy from the country came mill while milling their cane; the cane cut his right knee and the second joints. Two cases of bear-bites, one from a bear and the other from a jackal, the patient was bitten by a mad jackal and once by a bear. Another case of a bear-bite from Bodag was admitted into hospital the bite was of six months' standing. The femoral bone was chipped off, leaving a large gap. The bone was extracted.

A lad about twelve years of age was brought
intestine projecting, inflamed, occasioned by a fall
hill on a rainy day.

Cholera visited Aska and its vicinity more s made its appearance very sparingly at the begin in July and August the sickness became prevale 81, of which 51 cured and 29 died ; besides these c of Aska among the lower class of people, particular refused to take medicines for cholera, stating that after taking English medicines ; they also say t great injury to their " Hamovaro " or goddess ; cor than any other caste of people. One case of cho seven years old, died of the disease after his return that station while the child was there with his p caused chiefly by starvation among the poor class c from the place where cholera was present, particul up in a very dirty state, stagnated water kept coudung with unbearable stench, sufficient to caus to prevent accumulating rotten coudung and fi prevent sickness.

Small-pox also made its appearance in Askaniya, commencing as usual from the lower class of people and Small-pox was rather prevalent among the servants. It occurred with the children of two and eleven years of age. The type occurred among one of the servants' child; the child could not keep the flies sitting on the boy, by which a large quantity of their way to the head by the nostrils; the whole nose was filled with spirits of camphora; the lad got over the complaint and was destroyed. Another severe case of small-pox of the same kind was lying in the bazaar of Aska, sent by the Sub-Magistrate. He was in his last state when conveyed to the hospital. He was insensible; all care could not do him any good; and he died. Small-pox still continues in Aska.

Lately a woman was conveyed into hospital Hautghur Taluk, about ten miles from Aska, with the cut was of a lacerated kind, caused by a fall with the aid of a bamboo which gave way, and was cut about eight inches long; the wound was wide; the and adhesive plaster as usual applied; the woman was admitted lately into hospital. A young D. very much emaciated and a regular bed-ridden patient, abscess under the knee of the right leg, and
