GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

19th February 1879, No. 472 W.

Buildings and Roads.

Civil Works.

Read the following paper :—

No. 143. From Major S. C. CLARKE, R.E., Acting Superintending Engineer, Third Circle, to the Chief Engineer, Public Works Department, dated St. Thomas' Mount, 11th February 1879, No. 685.

I HAVE the honor to request information whether it was the intention of Government in G.O., No. 1,699 W, dated 4th April 1878, that the register of the height of water in certain wells named therein should be kept up permanently, or whether it was intended that the registers should be discontinued at the end of last calendar year. This reference is rendered necessary, as the Cuddalore and Chingleput Divisional Officers report that, from records in their late District Engineer's Office, they were led to suppose that the register for wells in their divisions were only intended to be kept for 1877-78.

No. 144. ORDER THEREON, 19th February 1879, No. 472 W.

THE submission of the returns in question should be continued. The orders of Government on this point are clear—*Vide* Proceedings, dated 4th April 1878, No. 1,699 W.

*The Chief Engineer
Public Works Department.*

Sir,

I have the honor to request informa-
tion whether it was the intention of
Government in G.O. No 1699 dated 4th April
1878 that the Register of the height of water
in certain wells named therein, should
be kept up permanently or whether
it was intended that the Registers
should be discontinued at the end of
last Calendar year. This reference
is rendered necessary, as the Cuddalore
and Chingleput Divisional officers re-
port that, from records in their
late District Engineer's office, they were
led to suppose that the Register for
wells in their Divisions were only intend-
ed to be kept for 1877-78.

I have the honor to be.

Sir
Your most obedient servant
Major R. E.
As Super Engineer, 3rd Circle
