GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

19th February 1879, No. 477 W.

General.
Account.

Read the following papers :—

- No. 151. Office Note from the Examiner of Public Works Accounts, dated 2nd January 1879.
- No. 151-A. Memorandum by the Chief Engineer, Public Works Department, dated 13th January 1879.

No. 152. ORDER THEREON, 19th February 1879, No. 477 W.

HIS GRACE the Governor in Council, having had under consideration the question of the general working of the Government Lime Kilns, &c., in the Presidency Division, observes that these kilns were originally established to supply good unadulterated lime for the works in the Presidency, and that its manufacture has been carried out by Government officers. He further observes that these kilns are worked under the supervision of the Executive Engineer at the Presidency, under the rules of the Public Works Department that ordinarily govern the manufacture of stock.

2. These kilns have hitherto been worked successfully, and their continuance is sanctioned; but with a view of affording relief to the staff of the Presidency Division, His Grace the Governor in Council resolves to transfer the charge of them to the General Superintendent of the Public Works Workshops, who has greater facilities for carrying on manufacturing operations, and who will doubtless be able to work the kilns to even greater advantage than under the old system. The Superintending Engineer, Third Circle, will accordingly make the necessary arrangements for giving effect to the transfer.

3. The General Superintendent of the Public Works Workshops will in future manufacture and issue the lime as any other material supplied to the department. He will obtain funds for the purpose of carrying on the manufacture of lime through the Examiner of Public Works Accounts in the same way as funds are now obtained for workshop purposes generally, and he will pay into the treasury all receipts realised on account.

4. The Examiner of Public Works Accounts is authorised to issue the necessary credits to the workshops for the purpose above indicated.

(True Extract.)

Government Lime Kilns.—Instructions
issued for the transfer of the supervision of
the — to the General Superintendent of
Public Works Workshops.

Office Note from the Examiner P.W. Accounts
dated 2nd January 1879.

FOR ORDERS.

This whole matter is
new to me —

I do not know on what
footing the Lime Kilns
are worked, or why
papers are extended

this season — I do not

know the papers

bearing thereon — I think

the C. & S.D. report has

been — and the previous

papers should be arranged —

I think it may be

opined that no successful

matter can be carried on if

workmen have to travel

Memorandum.

With reference to His
Grace the Governor's
remarks the Chief
Engineer begs to state
that the only way in
which good unadulterated
lime in the quantities
required under ordinary
circumstances for the
Presidency Division
can be obtained is in
the mode at present
adopted i.e. by its
manufacture by local
officers - and the Chief
Engineer recommends that

Sandwich Island
lime be used for
purposes. & that no
other lime be
used & the public
works.

The works
& this will appear
the same to the
S. H. S. S. S. S.

His

this course should be
pursued with this
exception that the
whole of the Lime Kilns
Hos. Hos. Hos. be transferred
to the charge of the General
Superintendent of P. H.
Workshops who shall in
future manufacture
and issue the lime as
any other material
supplied to the Department.

The manufacturing pays
well and if abolished
will result in an
immediate loss to Govt.
of the cost of Rs 600 per annum
for the remaining time
of the contract - The Credits
required to admit of the
manufacture of lime
being

being continued will be
issued like all other
credits for Workshop
purposes and all sales
credited as usual in
those accounts.

As the Workshops have
more facilities for carrying
on manufacturing opera-
tions - the Kilns will
doubtless under the
proposed arrangements
be worked to even greater
advantage than at
present - while the relief
which will be afforded
to the staff of the Presidency
Division will be
appreciable.

With reference to His
Grace the Governor's
enquiry as to the system
on

on which the Lime Kilns
are worked, it is explained
that ^{they} are worked under the
ordinary rules of the
P. & O. Department for stock
manufacture - the cost
being debited to "Stock"
which head of account
is relieved as the material
is used up or disposed of -
profits being credited to Stock.

The papers now put up
will show that the question
of the supervision of the
Kilns came before Govt.
in the year 1874 when it
was decided to place a
special Overseer in
immediate charge.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

UNDER date the 19th Feb 1879.

Read the following:—

Office note from the } (H. M. — d/ 2 Jan/79)
Examiners P. W. Sects }

Memo by the Chief Engr } (— d/ 13 Jan/79)
P. W. Dept }

His Grace the Governor
in Council having had
under consideration the
question of the general
working of the Govt.
Lime Kilns &c in the
Presidency Division, &c
observes that these
kilns were originally
established to supply
good unadulterated
lime for the works in
the Presidency, and
its manufacture has

been carried out by
Government Officers.
He further observes
that these Kilns are
worked under the super-
vision of the Executive
Engineers at the Presidency
under the rules of the
P.W.D. that ordinarily
govern the manufacture
of stock.

2. These Kilns have
hitherto been worked
successfully and
their continuance is
sanctioned; but with
a view of affording
relief to the staff of
the Presidency Division,
His Grace the Governor
in Council resolves to
transfer the charge of
them to the General
Superintendent of the

P.W. Workshops, ^{who} who
has greater facilities
for carrying on manu-
facturing operations
and who will doubtless
be able to work the
Kilns to even greater
advantage than under
the old system. The
Superintendent ^{Engineer} Third
Circle will accordingly
make the necessary
arrangements for giving
effect to the transfer.

3. The General
Super of the P.W. Workshops
will in future manu-
facture and issue the
lime as any other material
supplied to the Dept.
He will obtain funds
for the purpose of
carrying on the

manufacture of lime
through the Examiner
P. & Accounts in the
same way as funds
are now obtained for
workshop purposes
generally, and he
will pay into the
~~Treasurer's~~ receipts
realized on account.

4. The Examiner of
P. & Accounts is au-
thorized to issue the
necessary credits to
the workshops for the
purpose above in-
dicated.
