GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

12th March 1879, No. 749 W.

General.
Establishment.

Read the following papers :—

No. 155. From Major S. C. CLARKE, R.E., Acting Superintending Engineer, Third Circle, to the Chief Engineer, Public Works Department, dated St. Thomas' Mount, 11th February 1879, No. 691.

I HAVE the honor to report that the General Superintendent, Public Works Stores, in his letter, No. 4,144, dated 4th February 1879, a copy of which is appended, has submitted a proposal to appoint Mr. Clarke, a former apprentice in the Department Public Workshops, as Foreman of the Instrument Department during Mr. Doderet's absence from India, and to grant him, during such time, an acting allowance of Rupees 50 per month, to have retrospective effect from the date on which he took over charge of the work from Mr. Doderet. You will be good enough to obtain the Government orders on the proposition.

From Lieutenant W. L. C. BADDELEY, R.E., Acting General Superintendent, Public Works Workshops, to the Superintending Engineer, Third Circle (through the Executive Engineer, Presidency), dated Madras, 4th February 1879, No. 4,144.

I HAVE the honor to bring to your notice that the whole of the duties formerly conducted by Mr. Doderet, the Mathematical Instrument Maker, are now carried on by Mr. Clarke, a former apprentice who is not on the Permanent List of Workshops.

2. Mr. Clarke's present pay is Rupees 100, paid by the Workshops, and that drawn by Mr. Doderet was 500, made up as follows :—

250 from the Store Department,
250 from the Workshops,

including 15 Rupees on account of each of the apprentices.

3. As none of the apprentices now employed have had any instruction except from Mr. Clarke, I think it is only fair that he should draw some of the allowance; and I would therefore request permission to appoint Mr. Clarke to act for Mr. Doderet with an acting allowance of Rupees 50 per mensem in addition to his present pay, to take effect from the date of Mr. Doderet's departure for England.

No. 6,097.

SUBMITTED to the Superintending Engineer, Third Circle, for orders.

(Signed) S. C. PLUMMER, Lt.,
7th February 1879. Asst. Engr., in charge Presidency Division.

No. 155-A. From Lieutenant W. L. C. BADDELEY, R.E. Acting General Superintendent, Public Works Workshops, to the Deputy Chief Engineer, Public Works Department, dated Madras, 11th February 1879, No. 4,235.

WITH reference to my letter, No. 4,092, dated 1st February 1879, to the Superintending Engineer, Third Circle, I have the honor to suggest that before

Mr. Dederet, the Mathematical Instrument Maker of the Workshops, obtains permission to return to duty, steps should be taken to ascertain that he is medically fit for his work. From my short experience of Mr. Dederet, I am certain that unless his health has materially improved it will be to the disadvantage, both of himself and to the Workshops, that he should return.

2. An Instrument Maker of Mr. Dederet's experience and abilities is I consider an absolute necessity, and I trust that if Mr. Dederet does not return a thoroughly efficient man may be obtained to fill his place.

No. 156-B. From the same officer, dated Madras, 3rd March 1879, No. 4,582.

With reference to memorandum, No. 807, dated to-day, I have the honor to forward two statements giving the required information.

2. The heading "Manufacture for Stock" does not mean that the articles are, in every case, made without requisitions from the district, but it is a heading which becomes necessary for the purpose of issue, as the articles pass through the books of the Workshop Stores.
