GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

31st March 1879, No. 963 W.

Buildings and Roads.
Civil Works.

Read the following papers:—

No. 337. From Lieutenant-Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Second Circle, to the Chief Engineer, Public Works Department, dated Bellary, 25th November 1878, No. 413.

THERE is a difficulty about an office building for the Executive Engineer at Anantapur in the Bellary District. There is an old school-house not occupied; but it is open on two sides, and would require additions and repairs to make it suitable for the Executive Engineer's Office.

2. There is a bungalow available in the town which can be repaired at a cost of Rupees 600, or rather by an expenditure of Rupees 600 at present, in commutation of a monthly rent of Rupees 25 for two years. The Executive Engineer has a stamped agreement with the owner for the rent being taken for the purpose of repairing the bungalow for the first two years.

3. I have desired the Executive Engineer to furnish an estimate, and I have the honor to request that I may be authorised to sanction the estimate within the limit of Rupees 600, the present outlay being incurred by the Government in anticipation of two years' rent at Rupees 25. It appears to me that this is the easiest way of obtaining accommodation and allows of the postponement of the construction of a new Executive Engineer's Office. Funds can be found, if I may transfer Rupees 70 from the Nellore District and Rupees 200 from Kurnool.

No. 337-A. From the same Officer, dated Bellary, 18th March 1879, No. 2,217.

IN reply to your memorandum, No. 5,393, of the 4th December 1878, I reported that I could not ask for a transfer of funds, under the orders restricting all expenditure, for repairs to the building required for the Executive Engineer's Office at Anantapur in the Bellary District.

2. As funds will now shortly be at my disposal from Repairs, Civil Buildings, from the budget allotment of next year, I have the honor to request you will be so good as to obtain the orders of the Government on my proposal* that Rupees 600 should be laid out by anticipating two years' rent at Rupees 25 a month. If I can appropriate the money early in April, there will be two clear months for the repairs before the early rains of the south-west monsoon.

No. 338. ORDER THEREON, 31st March 1879, No. 963 W.

THE proposals contained in the Superintending Engineer's letter, No. 413, dated 21st November 1878, in regard to the provision of accommodation for the Divisional Office at Anantapur in the Bellary District, are sanctioned.

2. The charge will be met from the allotment for provincial repairs for 1879-80.
