GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

23rd June 1880, No. 1,467 W.

**Buildings and Roads.**
**Civil Works.**

Read the following papers :—

No. 68. From J. W. RUNDALL, Esq., Acting Superintending Engineer, Third Circle, to the Secretary to Government, Public Works Department, dated Iruvappapuram, 26th April 1880, No. 67 M. D.

I HAVE the honor to forward herewith revised estimates, amounting in the aggregate to Rs. 5,645, for improvements to the Sub-Collector's bungalow at Dindigul.

1 Plan of Cook-room.
1 Do. of proposed alterations to the bungalow.
1 Estimate for improving the do.
1 Do. for Cook-room.
1 Statement of the proposed expenditure.
2 Comparative Statements.

2. These estimates are in lieu of those sanctioned in G.O., No. 2,831 W., of the 10th November last.

3. The work was commenced in December and on taking off the old roof from the main building and proceeding to carry out the work, it was found that the outer walls instead of being, as was supposed by Mr. Harington who prepared the original estimate, solid and sound, were merely party walls ; in some cases built round wooden verandah posts which had rotted and left hollow spaces in the wall.

4. This is remarked on in my inspection notes for February under date the 9th.

5. The estimate was revised by my orders and, as now made out, provides for reconstructing the verandah and cross walls which were found to be unsound, for constructing two new bath-rooms, reconstructing the floor, replastering the walls and repairing pandal. The construction of a new cook-room has also been estimated for, as the old cook-room is at a most inconvenient distance from the main building.

6. As so many of the walls had to be removed, the revised estimate allows for a re-arrangement of the accommodation.

7. As reported in my notes above mentioned the present Sub-Collector (Mr. Roupell) considers that, even when thus improved, the bungalow will not be sufficiently commodious for an officer in his position. I told him when we met that this question must be referred through his own department, but that as the estimate originally prepared by the Public Works Officers was found unsuitable, a revised one would be forwarded for sanction.

8. As we have withdrawn from the Madura district, the materials collected for the execution of the work according to the original plan have been handed over to the Sub-Collector.

9. Should Government sanction the revised estimate funds will have to be placed to the credit of the Revenue officers. The expenditure in the Public Works Department has amounted to Rs. 1,879 and the balance to be allotted is, therefore, Rs. 3,766.

No. 68-A. From the same Officer, dated Kumbakónam, 4th June 1880, No. 158 M. D.

WITH reference to your memorandum No. 1,318 of the 12th May, I have the honor to state that on forwarding the revised estimate for the improvements to the Sub-Collector's bungalow at Dindigul to the Collector with a request that he would countersign them, Mr. Stokes has returned them unsigned, and informs me that an estimate, amounting to Rs. 6,384, for a *new* bungalow has been forwarded to Government.

Two Plans.
Two Estimates.
Two Comparative Statements.
One Statement of Expenditure.

2. This is referred to in paragraph 7 of my No. 67 of the 26th April, and I did not forward the revised estimate to the Collector for countersignature before sending it on to you, because I understood that the Revenue officers wished for a new bungalow in preference to improving the old one.

3. As the improvements were commenced by us, I thought it right to have the revised estimate prepared and sent on, so that the cost of improving the old bungalow might be before Government when deciding whether these improvements should be carried out or a new building erected.

4. With this object I beg to return the papers formerly sent up.

---

Proceedings of the Madras Government in the Revenue Department, dated 31st May 1880, No. 598.

Proceedings of the Board of Revenue, dated 7th May 1880, No. 626.

From H. J. STOKES, Esq., Collector of Madura, to the Secretary to the Board of Revenue, dated 9th April 1880, No. 116.

IN forwarding herewith copy of the Acting Sub-Collector's letter, dated 2nd April 1880, No. Z, with its enclosures, on the subject of constructing a bungalow for the Sub-Collector at Dindigul, I have the honor to state that an estimate, amounting to Rs. 3,965, was sanctioned for the purpose in G.O., No. 2,831 W., dated 10th November 1879, but only a portion of the work was put in hand and about Rs. 420 were spent before the close of the official year 1879-80 as it would appear from the Sub-Collector's letter above quoted. As the work is emergent, the Sub-Collector having no other proper building at Dindigul to occupy, I request that early sanction may be accorded for the amount of the present estimate from the allotments made for the repair, &c., of Civil Buildings in this district for the year 1880-81.

2. I also request that sanction may be given to proposals in paragraph 5 of the Sub-Collector's letter.

---

From N. A. ROUPELL, Esq., Acting Sub-Collector, to the Collector of Madura, dated Kodaikánal, 2nd April 1880, No. Z.

I HAVE the honor to forward by this day's post plan (in a tin case) and estimates,* &c., of the proposed Sub-Collector's house at Dindigul.

* Enclosure No. 1—Detailed Estimate.
" " 2—Abstract Estimate.
" " 3—Specification Report.

2. The whole of the existing raised platform has been utilised, and an addition will have to be made thereto on the northern side. Part of the present sound walls will be left, while part must be removed to carry out the design.

3. The old kitchen, which is at a great distance from the house, can be converted into a stable; a new one has been provided in the present plan as well as a store-room, which is a necessity.

4. The house will be commodious and yet not overlarge.

5. The estimate may seem low, but I believe the work will be well done and within the rates specified under the following conditions:—

(*a.*) The execution of the work must be left to the Revenue Department.
(*b.*) For the preparation of bricks and chunam the use of fuel trees standing on Government waste.
(*c.*) The use of stones of the old Dindigul Fort at present lying buried in the ground.
(*d.*) The labor of the rigorously-sentenced prisoners in the Dindigul Sub-jail.
(*e.*) The use of good junglewood except in the case of the few large beams required.

6. I enclose for your information a sketch* of the alterations to the old bungalow proposed by the Public Works Department. The old lines have been adhered to. Some walls would be removed to enlarge the remaining rooms, but the bed-rooms would be only just over 13 feet wide, and to make up for this scanty width would be lengthened out of all proportion. Two small and hot bath-rooms have been added on to the western side. The house would be protected from the sun by nothing better than a pandal, which would frequently fall into disrepair and involve expense for its removal. The estimate so far as I can judge by that formerly approved by Government (which could not be carried out owing to the discovery that all the outer and connecting walls which were supposed to be sound were quite the reverse) would not fall much short of Rs. 5,000.

* Enclosure No. 4.

7. The stables, servants' rooms and offices have been repaired under the original estimate at a cost of just over Rs. 420. This will have to be added to the amount of the estimate now submitted, making a total of Rs. 6,804-13-2.

8 I trust the Government may be pleased to approve of the erection of a commodious and cool house. No restoration of the former bungalow upon the old lines can fulfil these requirements, and, in my opinion, money devoted to any such design would be very badly laid out.

---

ENCLOSURES Nos. 2 and 3.—Estimates.

---

ENCLOSURE No. 4.—Specification Report.

---

ENCLOSURE No. 5.—Plan.

---

SUBMITTED to Government with the request that the necessary funds for the execution of the work, amounting to Rs. 6,384-10-9, may be placed at the disposal of the Collector out of the reserve of Rs. 2,03,829 in the Provincial Budget, Public Works Department, for 1880-81.

2. The estimates now submitted provide for the erection of a new bungalow. It was at first proposed to repair the old bungalow occupied by the Sub-Collector at a cost of Rs 3,965, and an expenditure of Rs. 420 has been incurred, but the further prosecution of the work was stopped by the discovery of the unsoundness of all the outer and connecting walls.

*Vide* G.O., dated 10th November 1879, No. 2,831 W.

3. The proposals in paragraph 5 of the Sub-Collector's letter appear to be judicious.

(True Copies and Extract.)

(Signed) C. A. GALTON,
Secretary.

---

SANCTIONED and referred to the Public Works Department as to the question of funds.

2. This sanction does not however include permission to cut down any of the trees near the station though on waste ground. The conservation of existing trees is essential in that neighbourhood.

(True Extract.)

(Signed) J. A. DAVIES,
*for* Secretary to Government.

No. 69. ORDER THEREON, 23rd June 1880, No. 1,467 W.

THE estimate furnished by the Collector for a bungalow for the Sub-Collector Dindigul is sanctioned, and the necessary funds, amounting to Rs. 6,385, are provi from the Provincial Reserve.

2. The execution of the work will be left to the Revenue Department, Public Works Department being relieved entirely of responsibility for the sufficie of the estimate and for the quality of the work.

3. This sanction has been registered as Provincial No. 8 B. of 1880-81.

Built Bungalow at Quilon

To.

Col R. H. Lankey R.E.
Chief Engineer P.W.D.

Sir,

I have the honor to forward herewith revised Estimates amounting in the aggregate to Rs 5,615 for improvements to the Sub Collector's Bungalow at Quilon.

2. These Estimates are in lieu of those sanctioned in G.O. No 2,331W of the 10th November last.

3. The work was commenced in December and on taking off the old roof from the main Building and proceeding to carry out the work, it was found that the outer walls instead of being, as was supposed by Mr Harington who prepared the original Estimate, solid and sound, were merely party walls, in some cases built round wooden verandahs

1- Do for Cookroom
1- Statement of the proposed Expenditure
2- Comparative Statement

Z

roots which had rotted and left hollow spaces in the wall.

4. This is remarked on in my Inspection Notes for February under date the 9th.

5. The Estimate was revised by my orders and as now made out, provides for reconstructing the verandah and arch walls which were found to be unsound: for constructing 2 new bath rooms, reconstructing the floor, replastering the walls and repairing pandal. The construction of a new cook room has also been estimated for, as the old cook room is at a most inconvenient distance from the main buildings.

6. As so many of the walls had to be removed, the revised Estimate allows for a rearrangement of the accommodation

7. As reported in my Notes above mentioned, the present Sub Collector (Mr. Roupell) considers that even when improved, the Bungalow will not be sufficiently commodious for an Officer in his position. I told him when we met, that this question must be referred through this new Department, but that as the Estimate originally prepared by the P. W. Off: -icers was found unsuitable, a revised one would be forwarded for sanction.

8. As we have withdrawn from the Madura District, the materials collected for the execution of the work according to the original plan have been handed over to the Sub Collector.

9. Should Government sanction the revised Estimate funds will have to be placed to the credit of the Revenue officers. The Superintendence in the P. W. Dept. has amounted to Rs. 1879 and the balance to be allotted is therefore Rs. 3766.

I have the honor to be

2. I also request that sanction may be given to proposals in paragraph 5 of the Sub-Collector's letter.

---

ENCLOSURE No. 1.

From N. A. ROUPELL, Esq., Acting Sub-Collector, to H. J. STOKES, Esq., Collector of Madura, dated Kodaikánal, 2nd April 1880, No. Z.

I HAVE the honor to forward by this day's post plan (in a tin case) and estimates,* &c., of the proposed Sub-Collector's house at Dindigul.

*Enclosure No. 1—Detail Estimate.
Do. ,, 2—Abstract Estimate.
Do. ,, 3—Specification Report.

2. The whole of the existing raised platform has been utilized, and an addition will have to be made thereto on the northern side. Part of the present sound walls will be left, while part must be removed to carry out the design.

3. The old kitchen, which is at a great distance from the house, can be converted into a stable; a new one has been provided in the present plan as well as a store-room, which is a necessity.

4. The house will be commodious and yet not overlarge.

5. The estimate may seem low, but I believe the work will be well done, and within the ratee specified, under the following conditions:—

(*a.*) The execution of the work must be left to the Revenue Department.
(*b.*) For the preparation of bricks and chunam the use of fuel trees standing on Government waste.
(*c.*) The use of stones of the old Dindigul Fort at present lying buried in the ground.
(*d.*) The labor of the rigorously-sentenced prisoners in the Dindigul Sub-jail.
(*e.*) The use of good junglewood except in the case of the few large beams required.

6. I enclose, for your information, a sketch* of the alterations to the old bungalow proposed by the Public Works Department. The old lines have been adhered to. Some walls would be removed to enlarge the remaining rooms, but the bed-rooms would be only just over 13 feet wide, and, to make up for this scanty width, would be lengthened out of all proportion. Two small and hot bath-rooms have been added on to the western side. The house would be protected from the sun by nothing better than a pandal, which would frequently fall into disrepair and involve expense for its removal. The estimate so far as I can judge by that formerly approved by Government (which could not be carried out owing to the discovery that all the outer and connecting walls which were supposed to be sound were quite the reverse) would not fall much short of Rs. 5,000.

* Enclosure No. 4.

7. The stables, servants' rooms and offices have been repaired under the original estimate at a cost of just over Rs. 420. This will have to be added to the amount of the estimate now submitted, making a total of Rs. 6,804-13-2.

8. I trust the Govern nent may be pleased to approve of the erection of a commodious and cool house. No restoration of the former bungalow upon the old lines can fulfil these requirements, and, in my opinion, money devoted to any such design would be very badly laid out.

ENCLOSURE No. 5.—Plan.

---

SUBMITTED to Government with the request that the necessary funds for the execution of the work, amounting to Rs. 6,384-10-9, may be placed at the disposal of the Collector out of the reserve of Rs. 2,03,829 in the Provincial Budget, Public Works Department, for 1880-81.

2. The estimates now submitted provide for the erection of a new bungalow. It was at first proposed to repair the old bungalow occupied by the Sub-Collector at a cost of Rs. 3,965, and an expenditure of Rs. 420 has been incurred, but the further prosecution of the work was stopped by the discovery of the unsoundness of all the outer and connecting walls.

*Vide* G.O., dated 10th November 1879, No. 2,831-W.

3. The proposals in paragraph 5 of the Sub-Collector's letter appear to be judicious.

(True Copies and Extract.)

Do. Do (--- 58 dt 4 June/80)

Pro in the Rev. Dept... (--- 598 of 31st May/80)

The estimate furnished by the Collector for a bungalow for the Sub Collector at Dindigul is sanctioned, and the necessary funds amounting to Rs. 6385 are provided from the Provincial Reserve.

2. The execution of the work will be left to the Revenue Dept, the PW Dept being relieved entirely of responsibility for the

sufficiency of the
estimate, and for t
quality of the work
3 This sanction has been
registered as Provincial
