SIR,—I am directed, in acknowledging the receipt of your circular letter, dated 9th August 1880, No. 492 M.W., to request that this Government may be relieved from the task of submitting a list containing every military building in the Madras Presidency, with its cost and date of erection, involving in many cases a search through the records of years.

2. The buildings of the kind to which your circular is intended to refer are probably very few in number, and if the words entered in the margin were to be omitted from the call, it is believed that the entries would be limited to perhaps a dozen, instead of hundreds.

SIR,

The Government of India has now under consideration measures for reducing the large and increasing expenditure upon repairs to military buildings, and it has been led to suppose that there are many temporary barracks and other buildings which are maintained and kept in repair by the Public Works Department, after permanent buildings have been constructed to replace them. I am to direct that no temporary military building shall be kept in repair from Imperial Funds, for any purpose for which a building would not have been authorized, and that all such buildings which exist, as well as temporary accommodation in excess of the wants of the authorized strength of the troops at a station, shall be removed, unless the special sanction of Government is obtained for their retention. For this latter purpose a return should be submitted in the accompanying form showing the accommodation at each station, whether permanent or temporary, the uses to which the buildings are put, and noting the temporary buildings which should be removed under this order, or the grounds for desiring their retention.

I have the honor to be,

SIR,

OFFICE NOTE.

To Dr

I think from what I see of the before me, the demand seems altogether unreasonable - Plans are furnished by each a Superintending Engineer in the State Provinces of the kind to which this Resolution is intended to refer, and the account for these Officers are to be called upon to submit a list of existing buildings in the Provinces, with the

cost and date of
erection, involving in
many cases a search
through records for
many years back -

If the return were
limited by the omission
of the words between
the blue brackets it
would give all the
information required
and would contain
half a dozen entries
instead of many
hundreds -
