PUBLIC WORKS DEPARTMENT.

4th September 1880, No. 2,086 W.

General.
Establishment.

Read the following paper :—

No. 23. From Lieutenant W. L. C. BADDELEY, R.E., General Superintendent of Presidency Public Works Workshops, to the Chief Engineer, Public Works Department, dated Madras, 30th June 1880, No. 846 W.

I HAVE the honor to report that under the recent orders of Government restricting the manufacture of lime at the Government kilns, it will be impossible to work the kilns except at a loss to the workshop, as the total of the profits made will not cover the cost of the establishment and the compound interest which will have to be paid on the capital of the kilns.

2. I would also point out that there is no analogy between the manufactures of the workshop and that of lime, and apart from the question of loss to the workshop, there can apparently be no object in the kilns remaining in my charge.

3. The services of the Overseer employed to look after the kilns might advantageously be utilised in looking after works in the Presidency Division, as well as at the lime kilns, and I would therefore beg to suggest that the lime kilns should be retransferred to the Superintendent of Works, Presidency.

No. 24. ORDER THEREON, 4th September 1880, No. 2,086 W.

THE proposal to transfer the lime kilns and the Overseer in charge of them to the Presidency Division is approved.
