GOVERNMENT OF MADRAS.  
PUBLIC WORKS DEPARTMENT.

20th October 1880, No. 2,425 W.

General.  
Account.

Read the following paper:—

No. 88. From Captain A. AWDRY, R.E., Superintendent of Works, Buckingham Canal, to the Chief Engineer, Public Works Department, dated Camp, Kristnapatam, 19th September 1880, No. 1,683.

I HAVE the honor to forward a statement showing lists of the materials borne on my books and actually at site of the different works connected with the Buckingham Canal, (as stated in this office letter, No. 1,361, of 10th August 1880,) and to inform you that the list has been made out after careful stock-taking.

2. I have the honor to request you will be so good as to accord sanction for the disposal by sale of the materials noted in column 7, writing off to profit and loss the difference between their book value and sale receipts, and also the writing off of the materials noted in column 9 which cannot be found now, or have deteriorated and become useless.

3. I should recommend the retention of the materials in column 8 as stock, as they will not deteriorate and will be useful hereafter, while they could not be sold except at a loss and as they are near the canal where they can be cheaply transported to works when in progress, for which the provision and cartage of fresh material would be more costly.

No. 88-A. Office Note from the Examiner, Public Works Accounts, dated 11th October 1880, No. 642.

No. 89. ORDER THEREON, 20th October 1880, No. 2,425 W.

It has been ascertained that none of the articles shown in the list submitted by the Superintendent of Works are borne on the stock accounts of the Buckingham Canal Division. It is supposed that they must have been charged to the works for which they were originally procured. It will not therefore be necessary to write off to "profit and loss" any loss that may arise by their sale.

2. The proposal of the Superintendent of Works to dispose of the materials shown in column 7, valued at Rs. 3,595-4-2, is sanctioned.

3. As regards the materials shown in column 8, valued at Rs. 11,436-13-2, the Superintendent of Works will reconsider his proposal to bring them all on the stock accounts. It is undesirable to swell the stock accounts of the Buckingham Canal Division by so large a sum. The list should be carefully revised, and only such materials retained as are likely to be utilised within a reasonable time. The remainder should be disposed of.

4. The materials shown in column 9, valued at Rs. 2,199-4-8, may be written off. It is stated that of these materials some cannot now be found, and others have deteriorated or become useless, a clear indication of the necessity for keeping the stock on hand at the lowest possible limit.

5. The sums realised by sale of materials under these orders should be reported for information.

6. As the cost of the materials was originally charged off to works, only the actual realisations by sale or transfer to stock should now be credited to those works.

Materials in Stock on the Buckingham Canal Division.—Passing orders on the several proposals submitted by the Superintendent of Works for disposing of the —

No. 5/6 83

12425/3  
OFFICE OF THE SUPERINTENDENT OF WORKS,  
BUCKINGHAM CANAL,

Camp. Krishnapatnam 19<sup>th</sup> September 1880.

From

THE SUPERINTENDENT OF WORKS,

BUCKINGHAM CANAL,

To

THE CHIEF ENGINEER,

PUBLIC WORKS DEPARTMENT,

Madras.

Sir,

one Enclosure.

I have the honor to forward  
a Statement showing lists of the materials  
borne on my Books and actually at site  
of the different works connected with the  
Buckingham Canal, (as stated in this Office  
Letter No. 1361 of 10<sup>th</sup> August 1880) and to inform  
you that the list has been made out  
after careful stock taking.

2

I have the honor to request  
You will be so good as to accord sanction  
for the disposal by sale of the materials  
noted in Column 7 writing off to Profit  
and Loss the difference between their  
book value and sale receipts and also the

writing off the materials noted in  
column 9 which cannot to be found  
now or have deteriorated and become  
useless.

3 I should recommend the  
retention of the materials in column 8  
as stock as they will not deteriorate  
and will be useful hereafter, while they  
could not be sold except at a loss, and  
as they are near the canal where they  
can be cheaply transported to works when  
in progress for which the provision and  
cartage of fresh material would be more  
costly.

I have the honor to be,  
Sir,

Your Most Obedient Servant

A. Adam. Captain R.E.  
Superintendent of Works B. Canal

To C.

For remarks

S. P.

No. 642 of 11.10.80.

To W.

None of the articles refer-  
red to in the list are borne on  
the stock accounts of the Buck-  
ingham Canal Division but must appar-  
ently have been charged off to  
the works for which in the first  
instance they were procured and  
under the circumstances there  
will be no necessity for writing  
off to 'Profit and Loss' any loss  
that may arise by their sale.

2. I would point out however  
that there is no sanction to the  
retention of any 'reserve stock'  
in this division and the value  
of material proposed to be now  
brought on to stock viz Rs.  
11,426-12-2 seems very high.  
If there is no immediate pros-  
pect of utilizing them on other
