Dr. W.

It seems to me that
this is not the correct
procedure as regards
Repairs.

Superior Engineers have
final power under
para 294 (a) of the
Code to sanction all
such whether current
or special, and the
only question that can
arise is whether the
limit assigned to the
Circle Suffices in all
cases.

If they are to have
the independence an-
ticipated by the Code
they should be author-
-ized to appropriate
funds up to the limit
given in Part III of

The Budget which
should be made now
to turn at the imminent
of the April year
with of course such
reservations in April
Cases as appear
necessary.

Should there be any
particular reason why
more funds it is not
in such cases that
application to Govt.
Accompanied by the
abstract of the estimate
which they wish to
sanction &c.

Please note any
objection that may occur
to you in regard to
this being the required
system in future working
and let us have a draft circular
(drawing attention to the fact that
enveloping such instructions may be
essential)

13.10.80

The S.I. should see
the draft as far possible
being a general one with
abstract in branch of
the Dept.

W. 25.10.80
I do not think there
is any necessity for special
instructions, the practice
proposed by you being already
in force. There
is no question about the
powers of S.I. to sanction
expenditure.

The particular case
in question has arisen
from the working of the
S.I. in the Principal
Department, which always
proceeds when it touches
any subject connected
with Public Works.

In this the S.I. was
called upon to
submit an estimate
for sanction, and was

15.10.80

plead literally with the
terms of the order -

I would have read
thoroughly in communicating
the Financial J. O. and
had told the S. J. W.
that the estimate could
be carried by himself,
but I overlooked this
point -

As the estimate has
been sent up the statement
plan will be a variation
in J. O. - the case
is not likely to recur -

S
15.10

C. A. W.

I have instructed
the order

18/10/80

P. W. SECRETARIAT-1879-80.

KEEP WITH.

Current No. 6271.

Letter No. 2179.

Dated the 2nd October 1880.

from the Supdt. of Works
Presidency.

Note of Memo.

The Estimate with
specification for repairing
the Elphinstone Bridge
spanning the Adyar River,
called for in G.O. No 2079
W. dated 2nd September 1880.
Amounts to Rs 2820.

The Estimate provides
for plastering with Colmar
Chunam & white washing
& for metalling the Road-
way.

The Estimates are
agreed with the District Engineer.

9th October 1880.
