GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

3rd February 1880, No. 256 W.

Buildings and Roads.
Civil Works.

Read the following papers :—

No. 3. From Major P. MONTGOMERIE, R.E., Superintending Engineer, Fourth Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 24th December 1879, No. 780.

In forwarding to you the correspondence as per margin, regarding the erection of a flagstaff at Cannanore, I have the honor to request your instructions whether the work in question should not be carried out entirely by the Marine Department in accordance with paragraph 10 of Public Works Department G.O., No. 2,483 W., dated 2nd October 1879.

One Master Attendant's letter, No. 8,493, dated 5th November 1879, with this office endorsement No. 471 M.L., dated 11th November 1879.
One Executive Engineer, Wynaad's No. 251, dated 12th December 1879.
Two Estimates.
One Plan.

2. The work is a peculiarly technical one, necessitating the employment of riggers or seafaring men which the Master Attendant would in any case have to provide.

3. The original estimate was prepared and furnished direct to the Master Attendant by the Executive Engineer, Wynaad, in accordance with a requisition made to District Engineer, Malabar, in May last, and was only received in this office with the Master Attendant's letter No. 8,493, dated 5th November 1879.

No. 3-A. From J. H. TAYLOR, Esq., Lieutenant R.N.R., Master Attendant, Administrative Department, Madras, to the Chief Engineer, Public Works Department, dated Madras, 28th January 1880, No. 671.

In returning the papers received with your memorandum No. 42 of 9th instant, I have the honor to state that this department can supply the wire and hemp rope, required for a new flagstaff at Cannanore, and it is presumed that, by advertising in the District Gazette, teak or other suitable spars might be readily obtainable within easy distance of Cannanore at reasonable rates, more especially as there have been numerous casualties amongst the shipping during last year.

2. With regard to the Superintending Engineer's remarks as to the work being purely technical, and requiring the employment of riggers or seafaring men, I would observe that there should be no difficulty in obtaining the services of such men at Cannanore, and no doubt the Conservator of the port would be able to secure suitable men if so required. Inquiry might be instituted for the parties employed in renewing the Tellicherry flagstaff, which was done entirely under Department Public Works supervision.

2 PUBLIC WORKS DEPARTMENT, 3RD FEBRUARY 1880, No. 256 W.

3. I beg that orders may be issued for the immediate execution of the flagstaff repairs, as the Military authorities at Cannanore point out that the flagstaff "is getting daily more and more out of the perpendicular," and that "it is dangerous to the buildings, &c., below."

No. 4. ORDER THEREON, 3rd February 1880, No. 256 W.

UNDER the circumstances explained by the Master Attendant, the Superintending Engineer, Fourth Circle, will be requested to take immediate steps for the early execution of the work in question.

2. Meanwhile an estimate should be prepared and submitted for the sanction of Government. On receipt of the estimate application will be made to the Marine Department for the necessary provision of funds.

No. 671.

From
THE MASTER ATTENDANT,
ADMINISTRATIVE DEPARTMENT,
MADRAS,

To
The Chief Engineer,
Public Works Department.

SIR,

In returning the papers received
with your memo. No. 42, of 9th Instant,
I have the honor to state that this Depart-
ment can supply the Wire and Hemp
rope required for a new Flagstaff at
Cannanore, and it is presumed that by
advertising in the District Gazette,
Teak or other suitable spars might
be readily obtainable within easy
distance of Cannanore at reason-
able rates, more especially as there
have been numerous casualties
amongst the shipping during last
year.

2. With regard to the Superintending
Engineer's remarks as to the work
being purely Technical, and requir-
ing the employment of riggers or
seafaring men, I would observe that
there should be no difficulty in ob-
taining

obtaining the services of such men at
Cannanore, and no doubt the Comman-
dant of the port would be able
to secure suitable men, if so required.
Enquiry might be instituted for the
parties employed in renewing the
Tellicherry Flagstaff, which was
done entirely under D. P. W. super-
= vision.

2. I beg that orders may be issued
for the immediate execution of the
Flagstaff repairs, as the military
authorities at Cannanore point out
that the Flagstaff "is getting daily
"more and more out of the perpendi-
"cular" and that "it is dangerous
"to the buildings very below."

I have the honor to be
