Sir,

With reference to your Memo No 2481 of 10th Novr. 1880, I have the honor to report that the causes of delay in the settlement of the claim of Rs 230 for compensation for land taken up for public purposes in the village of Zamin Adyar approved of in G. O. No 1183+ of 27th July 1878 in the Revenue Department are as follows.—

2. The Executive Engineer forwarded the compensation bills duly verified to the office of the Supg. Engineer, 3rd Circle in May /79, they were returned to him in June /79 for further information and for being put in proper form.— In December /79 the Executive Engineer reforwarded them and the Supg. Engr at once wrote to the Examiner to know to what head of service the bill could be met.

3. The Examiner returned it on the 22d Decr and stated he was unable to audit it in the absence of the sanction of Govt in the D.P.W. Deptt. After some correspondence (see letter No 249 of 21st January /80 from the Supg: Engineer 3d Circle to the Chief Engineer) in memo No 437 dated 7th Febry from the Chief Engineer for Irrigation directed the cost was to be debited to Agricultural River Conservancy.

4. After the Estimate had been sanctioned an application for funds was submitted on the 4th March 1880; this was not sanctioned until too late in the official year ending 31st March for payment to be made and therefore the appropriation made lapsed.

5. In April the new 2nd Circle was framed, this, of course, caused delay in the disposal of papers and it was not until June /80 that a new application for allotment was sent in; this was returned by the Chief Engineer for Irrigation on the 1st July with a request that a transfer from other Divisions might be proposed as there was no balance from the Reserve available

6.

6. A reference to one of the other Divisions was necessary and it was not until the 27th July that the transfer was proposed. This was sanctioned on the 13th August /80 in P. W. G. No 5201 and the sanction was at once communicated to the Executive Engineer. He has been called for to report as to whether the claim has been settled or not.

I have the honor to state that the Collector of the Chingleput District in his letter No. 9 dated 2nd July 1878, to the Board of Revenue, embodied in G.O. No. 1183 dated 27th July 1878, in the Revenue Department (copy enclosed for ready reference), has forwarded, a draft declaration for taking up, under Act X of 1870, lands measuring 3.75 Acres proposed to be added to the Sydapett experimental Government Farm, but in the G.O. referred to, it is stated that "the Government are not prepared to add the land in question to the Government Farm, but approve of its being taken up and reserved for public purposes." On receipt of land compensation bill No. 9 dated 12th February

1879 for Rs 229-9-1 from the Collector, (copy herewith sent for information) the Examiner of Public Works Accounts was requested to state from what funds, the amount of the bill in question is to be met and to what head of service the charge is to be debited, as the term "public purposes" is not understood, in reply to which he points out that he is unable to audit it in the absence of the sanction of Government in the Public Works Department. I request therefore that you will be good enough to obtain the necessary sanction of Government and also to provide funds for the audit and adjustment of the Bill, by the Examiner within the close of the current official year.

With reference to your endorsement No. 2371/C.N. of the 16th instant. I have the honor to report that the bill received from you has now been transmitted to the Collector to make the necessary payment to the party.

2. From the records of this office it appears that the bill was submitted to the Superintending Engineer in May 1879 for allotment of funds, which having been received later in the year, it was not communicated to the Collector and the allotment in consequence lapsed. Therefore a fresh allotment had to be applied for in the current official year, which was received in August last, but as the bill was not received it was not possible to arrange with the Collector for payment.

From the correspondence now submitted it is evident that great delay has taken place in the settlement of the claims of the petitioners concerned, for compensation for lands taken up. The attention of the Supg Engineer, 2d Circle, is drawn to G.O. No 2725 W dated 26th November 1880, and

and he will be careful that such claims are more promptly attended to in future.

2. The Collector of Chingleput will be instructed in the Revenue Department to pay the Petitioners at once.

To

The Superintending Engineer
Second Circle.

Sir

With reference to your endorsement No. 2371/C.N. of the 16th instant. I have the honor to report that the bill received from you has now been transmitted to the Collector to make the necessary payment to the party.

2. From the records of this office it appears that the bill was submitted to the Superintending Engineer in May 1879 for allotment of funds, which having been received later in the year, it was not communicated to the Collector and the allotment in consequence lapsed. Therefore a fresh allotment had to be applied for in the current official year, which was received in August last, but as the bill was not received it was not possible to arrange with the Collector for payment.

28th Novr. 1880.

I have &c. &c.

and he will be careful that such claims are more promptly attended to in future.

2. The Collector of Chingleput will be instructed in the Revenue Department to pay the Petitioners at once.
