GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

14th February 1880, No. 345 W.

General.
Establishment.

Read the following paper:—

No. 33. From Lieutenant-Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Second Circle, to the Chief Engineer, Public Works Department, dated Bellary, 21st January 1880, No. 4,259.

I HAVE the honor to represent that it has been the custom to have store watchers to take charge of road tools and other tools required for Irrigation and Provincial works. In some divisions the tools for the roads are handed over with the roads to the Local Fund Boards, but the other departmental tools require to have some one to look after them.

2. Under G.O., No. 2,786, of the 2nd October 1874, Dindigul Range, paragraph 4, the maintenance of roads is held to be debitable with the cost of cavalgars or store watchers; but this fund has passed out of our hands, and on a reference from the Anantapur Division, I have authorised the temporary retention of such store watchers as are absolutely necessary from the allotment for Tools and Plant, Repairs.

3. I see no other source of provision for this expenditure, and beg to recommend that it may be formally sanctioned.

No. 34. ORDER THEREON, 14th February 1880, No. 345 W.

UNDER the circumstances brought to notice by the Superintending Engineer, Second Circle, the Government authorise the entertainment permanently of a Storekeeper for each division on a salary to be fixed by the Superintending Engineer and reported for the approval of Government, for the charge of the tools and plant and stock appertaining thereto. The charge will be met from the budget grant for "Petty Establishments."

2. As regards tools issued to works the pay of the watchers during the time of their execution should be charged to those works; on their completion the tools employed on them should be returned into the custody of the Storekeeper.

3. Advantage should be taken of the present opportunity to clear the lists of all useless and worn-out tools as prescribed by the Code.
