TO

HIS GRACE

THE DUKE OF BUCKINGHAM

AND CHANDOS, G.C.S.I.

Governor of Madras.

HUMBLY SHEWETH,

That Petitioners are greatly aggrieved with the decision passed on their Petition, on the subject of Chunam Kilns being erected on other than Government lands.

2. That Petitioners set forth their grievance in detail in their Petition of 6th February last.

3. That Petitioners beg to lay before your Grace the following additional circumstances.—The Collector of Madras in forwarding their Petition to the Municipality for report, made the following statement—that Chunam Kilns are to exist only on Government lands, and that an application from the late C. V. Cumiah Chetty, for permission to erect a Kiln on his own private land was refused. The President of the Municipality, in his report on the subject, stated that he was not aware that Kilns were to be erected only on Government lands; that a license having been granted by him, it must stand for the period, viz., up to 31st March 1879. Before finally disposing of their Petition, the Petitioners pray that the entire correspondence on the subject may be called for from the Collector, Deputy Collector, the District Engineer, and the President of the Municipality. The Petitioners feel much grieved that after being called upon to pay so large a sum of, over Rupees 3,000 for ground rent and Municipal taxes for more than half a century, that Petitioners should receive no consideration to their appeal by a Government, whose characteristic it is to uphold truth and equity, and to deal out justice to all its subjects.

4. Petitioners do not wish merely of the trade in the city, for the trade is being extensively carried on beyond the Municipal limits, and to which Petitioners cannot possibly raise any objection, all that the Petitioners urge is, that they were for more than half a century permitted to rest under the belief that Kilns could be erected only on Government lands, and they have this justification for the belief that within the Municipal limits, there does not exist any Chunam Kilns than those of the Petitioners, and on Government lands rented for the purpose.

2

3. The present innovation is made by the President of the Municipality through ignorance of the fact, that Kilns should exist only on Government lands, and Petitioners pray that His Grace will be pleased to rectify, by an order, that the practice and usage which has obtained for more than half a century may not be departed from.

Earnestly beseeching Your Grace to take into consideration all the circumstances of their case,

Petitioners remain,

Your Grace's most obedient

humble Servants,

Public Works Department
EXECUTIVE ENGINEER'S DEPARTMENT,
Monday, 27th February 1879.

P. No. 540

From

L. R. BURROWS, Esq.,

~~Acting~~ *President Municipal Commission.*

To

L. S. Melville Esq.
Collector of Madras

Sir,

As requested in your letter of the 18th instant No 103 on the subject of the petition to His Grace the Governor of certain Chumam licences I have the honor to state that where the license to use a place as a Chumam Kilee was granted to A Chinna Verappa Chetti it was not known that there was any sort of understanding in the local trade that all chumam kilees were to be built on Government land as one spot near Cochranes Boom Road.

2. Soon after the issue of the licence I received a petition to the following effect from one Parthasarathy Maistry "that he and several other tradesmen have been in the habit of erecting their chumbers on land situated between the Chumam kilees and the foreshore depots for the last 20 years and that as many Chumam Verappa Chetties had

had

had just commenced building a few metres
10 or 15 feet of his house on the South side
and that if he were to leave off building it,
his house and the other houses would be
in danger."

3. The following reply was sent:-
"A license has been granted for the below
mentioned premises which is situated between the
second and third windows of the house which have
been two large bow windows with
dimensions. It is believed that Petitioner
is the owner or part owner of the old house.
In any case his house is so much affected
by the old house as it will be by the new one."

4. After the above matters
of the objection was disclosed in a series
of petitions from the owners of houses built
on the Promenade Pier opposite the Petitioners
Warehouses.

5. Whether, if desirable, it be
able to confirm the decision of Chairman
to one locality such is situated partly on
good deal of waste and such open
such nature, may happen to the eyes and
damage and calculated to be a nuisance
to those who are accustomed to the
old ones however are from the use of

Chairman

before which a license
refused a license
of the Petitioners
of the above mentioned
the disposal of the Commencement

Customs Office
6th March 1879

No 73

From
P. J. Melville Esqr
Collector of Customs

To
C. G. Mackie Esqr
Actg Chief Secretary to
Government

Sir,

I have the honor to reply to
your communication No 367 dated 14th
February 1879 on the subject presented
to His Excellency the Governor by some
of the Chinese Merchants of Galle and
2. Petitioners state that they have
had an exclusive right to the Chinese
trade at a spot granted by them from
Government near Cachchakes Canal &
Basin road that the Magistrate
originally granted a license in
favour of Lantiyan for the first time to
private individual to erect a kiln
near the spot occupied by the Petitioners
and that this has interfered with
their trade. It is also stated that
since December last the Public Works
Department have been selling Chunam

Enclosure 1 to No 73 dated 6th March 1879

Petition of Lantiyan
Galle 28th February 1879
To Hon

Chunam Kiln
Remarks on the Petition
of the Chinese Petitioners
Purchased of His Excellency
the Governor

2nd March 1879

to the publics thus interfering with the Petitioners trade.

3. A piece of Government waste land near Cochranes Canal Basin Road has been for several years last punted by a body of people styling themselves Cheramplain Merchants on an annual lease on the payment of Rupees 2000 a year to the Department. They have thus an exclusive right to enjoy the land rented from Government but they have not thereby acquired any exclusive right to trade in chunam so that persons employed by them in their petitions to Government.

4. When the Municipality granted a license to an individual to erect a kiln in the neighbourhood of the spot above mentioned, the Deputy Collector of Customs pointed out to the Petitioners that the issue of such license would be inconsistent to the stipulations of the Government lease and that it was further objectionable on sanitary grounds. The Petitioners answered that they had no power to withhold a license on the ground that the license would affect Government revenue and that the right to object on sanitary grounds

granted

granted untenable.

5. In a more recent letter Mr Barnes states that he has withheld the renewal of the license already granted from the orders of Government on the petition in dispute. His letter is enclosed in original for the information of Government.

6. In pursuance of the orders of Government the Assistant Engineer in charge of the Presidency Division was communicated with on the subject of the Petition. He has officer reports that from the year 1873 it has been usual for the Presidency Engineer to sell lime to any individual on application at the Government kiln quantities of the value of Rs 50 and upwards. In December 1878 there was a large stock of timeran burnt in consequence of the stoppage of all Government works and this remained a list of 8000 Rupees to be paid for the quantities from which shells for the Government lime kilns were obtained. Major Cave Sharpaw C.E. proposed to sell the stock on hand. The Government chunam is not sold cheaper than that procurable at private kilns and as it is quite optional with

for whom

purchasers where they buy elsewhere,
it cannot be said that Petitioners'
rights have been in any way interfered
with.

7. Your docket under reply
with its enclosures is returned.

I have the honor to be
Sir
Your most Obedient Servant.

Read 8th
No 73
Rs 3 (643)

Submitting a report on the petition presented by some of the Chunam merchants to His Grace the Governor on the subject of their right to the Chunam trade

8586.

47/7

TO

HIS GRACE THE DUKE OF BUCKINGHAM
AND CHANDOS, G. C. S. I.
GOVERNOR OF MADRAS.

May it please your Grace,

Petitioners are by profession merchants in Chunam kilns a trade carried on by their ancestors. These kilns were originally started on the Fort-glacis, from thence they were removed to the esplanade now converted into the Peoples Park, and they now occupy their present site at Cochrane's Canal Basin, which was provided for them by the Collector of Madras.

2. Petitioners have been carrying on their trade for a long number of years past; they pay an annual ground rent of Rs 2,500 to the Collector of Madras and the Municipal taxes recently imposed make their payments in this direction over Rs 3,500 annually to the public treasury. It will thus be apparent that petitioners have had an exclusive right to the chunam trade in the particular spots within the Municipal limits in which they were put in possession and dating back for nearly a century.

3. Petitioners further beg to state that applications for the erection of new kilns from parties owning private lands in the neighbourhood, have hitherto been steadily refused by the authorities empowered in that behalf.

4. The Municipality in November last have for the first time, granted a License to a party to build a kiln on private land, notwithstanding ~~objections~~ duly signed, and in direct variance with the practice which theretofore for years was followed, viz. of refusing licenses for the erection of working of kilns in the neighbourhood of the site which was assigned to petitioners. The effect of this action on the part of the Municipality, as it bears on your Graces humble petitioners is most disastrous, inasmuch as it has the tendency of interfering with the means of their livelihood.

5. Furthermore, since December last, the Govt. Engineers have also entered into chunam speculations and this renders their case still more oppressive.

6. Petitioners have respectfully represented these matters to authority but without avail. They are informed by the Municipality that "a license has been granted for the kiln" referred to; that "there is no objection to your erecting kilns on your own ground provided you obtain a license." Now this is not what we asked the Municipality. The prayer of Petitioners was that the license which was applied for for the erection of a kiln in the neighbourhood of their site might be withheld, on the ground that for years 70 and more Petitioners and their ancestors had the exclusive trade in that particular spot within the Municipal limits; that the grant of the license would be an innovation, as the authorities had hitherto refused it, and that petitioners were paying a considerable sum in the shape of taxes for the privilege of keeping the trade in their hands.

7 As Petitioners have not met with redress at the hands of the Municipality nor has the Superintending Engineer taken any notice of the representation made to him, and the matter being one of the greatest moment to Petitioners, they have no alternative but to lay their case, most humbly and respectfully, before your Grace and venture to pray that your Grace will condescend to visit the site at any appointed time when your Grace will be able to see precisely how the matter lies. Petitioners do not seek for any special favor to them in preference to any others being allowed to ply their trade as regards chunam Kilns beyond Municipal limits. Their only prayer is that they may not be deprived of their rights which have been secured to them by long usage and which as above shown have been recognised for long years past.

And as in duty bound they will ever pray.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

19th February 1879, No. 477 W.

General.
Account.

Read the following papers :—

No. 151. Office Note from the Examiner of Public Works Accounts, dated 2nd January 1879.

No. 151-A. Memorandum by the Chief Engineer, Public Works Department, dated 13th January 1879.

No. 152. ORDER THEREON, 19th February 1879, No. 477 W.

HIS GRACE the Governor in Council, having had under consideration the question of the general working of the Government Lime Kilns, &c., in the Presidency Division, observes that these kilns were originally established to supply good unadulterated lime for the works in the Presidency, and that its manufacture has been carried out by Government officers. He further observes that these kilns are worked under the supervision of the Executive Engineer at the Presidency, under the rules of the Public Works Department that ordinarily govern the manufacture of stock.

2. These kilns have hitherto been worked successfully, and their continuance is sanctioned; but with a view of affording relief to the staff of the Presidency Division, His Grace the Governor in Council resolves to transfer the charge of them to the General Superintendent of the Public Works Workshops, who has greater facilities for carrying on manufacturing operations, and who will doubtless be able to work the kilns to even greater advantage than under the old system. The Superintending Engineer, Third Circle, will accordingly make the necessary arrangements for giving effect to the transfer.

3. The General Superintendent of the Public Works Workshops will in future manufacture and issue the lime as any other material supplied to the department. He will obtain funds for the purpose of carrying on the manufacture of lime through the Examiner of Public Works Accounts in the same way as funds are now obtained for workshop purposes generally, and he will pay into the treasury all receipts realised on account.

4. The Examiner of Public Works Accounts is authorised to issue the necessary credits to the workshops for the purpose above indicated.

MADRAS, 8th *December* 1879.

TO

HIS GRACE,
THE DUKE OF BUCKINGHAM AND CHANDOS,
GOVERNOR OF MADRAS, G.C.S.I.

HUMBLY SHEWETH,

Your Petitioners beg leave to be permitted to lay before your Grace the serious position of pauperism by which upwards of 200 individuals are imperilled with their families caused by the Government Officials speculating on behalf of Government in the Local Market; within the current year the Public Works Department have entered on the speculation of manufacturing and selling Chunam to the general public. Your Petitioners are the regular traders in the above line as their ancestors were and this is the only living, your Petitioners have ever had; and to seek any other means of livelihood at this period of their life is quite beyond their capability.

Your Petitioners being registered as traders in Chunam are called upon by the Taxing Officers of this City half-yearly or yearly, to pay the full amount of assessed Tax; your Petitioners have been regularly paying up the demand against them although of late through the intrusive and injudicious Proceedings of Government Officials they have suffered considerable loss, and your Petitioners feel that they have not received due consideration at the hands of Government for the large amount of monies paid by your Petitioners into the Treasury annually from the time of their ancestors to the present day.

Your Petitioners in June last, made it their special duty to wait on your Grace personally at Ootacamand, but were prevented owing to ill health caused by exposure to the extrem inclemency of the weather; their representative however, personally handed the petition setting forth their grievances to which up to the present moment (now 6 months) your Petitioners have not heard in reply.

Your Petitioners beg leave to be permitted to request your Grace will be pleased personally to inspect the Chunam Kilns at Cochrane's Basin on any day your Grace may be pleased to name, where the misery and grievance set forth could be more fully ascertained; and they feel confident that your Grace will protect them from the utter destruction with which they are threatened by the interference in their trade secured to them from time immemorial.

Humbly soliciting that this petition will meet with your Grace's early and most favorable consideration and for which your Petitioner's will lifelong feel grateful and

EVER PRAY,

471/95

PUBLIC WORKS STORE DEPARTMENT,
Madras, 19th December 1879.

No. 3771. Br

From

THE GENERAL SUPERINTENDENT,
PUBLIC WORKS STORES AND WORKSHOPS,

To

THE Deputy Chief Engineer
Public Works Department
Salem Co.

SIR,

Enclosures.

With reference to your Memo dated 15th instant, I have the honor to report that Lime is sold to the general public from the Kilns under my charge, in any quantity, provided that all Government requirements can first be fully met.

2 The standing price is 8 Annas per parah of 4000 cubic inches for all purchasers and except for Government institutions, cash payment is always made.

3 The certainty of obtaining proper measure, and well burnt Lime, are the only reasons why the Government Kilns should be resorted to, and the inference from this is, that purchasers find a difficulty in getting these advantages from private merchants

4 The transfer of Kilns to any chosen

has increased the sales to the public as this office is conveniently situated and no minimum is fixed for the amount to be purchased.

5. If private merchants would sell good Lime in a straight forward manner, at rates slightly below that of the Government Kilns, I have no doubt, but that they would do a good trade, but, at present, I am confident that, even if they were to reduce their prices, the majority of people would still buy from the Government Kilns.

6. I consider that a monopoly of the trade in Lime by any small body of merchants, would be extremely disadvantageous to a large portion of the native Community, who are continually engaged in small building and repair works and who is exactly what the Petitioners want.

7. In course of time, if more Licenses are granted for the erection of kilns, the trade will develope, prices will be reduced and the general public will not buy from the Government Kilns, in fact,

on

471/36

in all probability, there will then be no necessity for Government to manufacture Lime, as it will be obtainable of good quality in the market.

8. In conclusion, I would observe that the existence of a Government manufacture of Lime, points clearly to the fact that the monopoly of the trade, which was possessed by the Petitioners and their Ancestors was attended with very bad results.

I have the honor to be,
Sir,
Your Most Obt. Servant

"if some licenses are
"granted in the centre
"of Cuba the trade with
"the Ports will be
"reduced and the Revenue
"derived will not pay for
"the Garrison there"

As it will appear by the return submitted with his Excellency's communication that since 1865-66 the Garrison Cities have turned out nearly 50 p/c more than the Country Towns and the Revenue derived from Public Depts and Sale Taxes in proportion there appears little or no hope for any such a system exists that any Country Contribution such as Excellency seems to extract is likely to furnish us

We are now about to [illegible] the Public Depts

171/37

- Cuba under the Spanish Regimen and that with no difficulty in arranging for the reduction of Garrison of Cities to actual requirements for the Government

It will I think then be difficult with the Amount of Revenue to make in reply to the present petition but in future we more than will be warned the actually required for the Government are

Should anything occur in relation to the recall of the troops the Government may in time buy like other in the open market.

2/2/80

Even as it is there might now be taken tentatively in this direction

Letters from P. Kasavelu Naicker & other Chinnaya pollies, Madras	}	(No. date 15th Decr 1852)
From the Supt of W Workshops		(— No. 3771 W of 19th — —)
— do — do —		(— 4143 W — 30th Sept/52)

His Grace the
Governor in Council considers
that the Govt manufacture
of lime should be restricted
to what is actually required
for departmental use, and
steps will be at once taken
to give effect to this
measure.

2. In addition to the

471/34

Lordships ordered in the
premises paras the Petitioning
Engineer should endeavour
to obtain a portion at
least of his supply in
the fair market, subject
to the necessary precautions
for ensuring purity of
quality and sufficiency of
supply.

3. A copy of these
proceedings will be for-
warded to the petitioners.
