GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

15th September 1880, No. 2,171-A W.

General.
Establishment.

Read the following paper:—

No. 84. From G. T. WALCH, Esq., Superintendent of Works, Godávari District, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 31st August 1880, No. 1,534.

With reference to your No. 338, 21st August 1880, which is I suppose a reply to my No. 1,271, 4th August 1880, I have the honor to subjoin my proposals in connection with the Census final enumeration of persons travelling or employed on the navigable canals of this district:—

(1.) On day fixed no boats to be passed through any of the *locks* from 5 to 10 A.M., previous notice of such stoppage of traffic being advertised.

(2.) Canals to be divided into "reaches;" such reaches to be about 8 miles long, or from lock to lock when their distance apart does not exceed 10 miles.

(3.) To each of such reaches an Enumerator to be appointed, who, where there are locks, will be a Lock Superintendent, and where there are no locks a Delta Superintendent or specially appointed Gumastah.

(4.) At 5 A.M. of the day appointed each Enumerator to go along his reach and enumerate all people in or towing boats in that reach.

(5.) On the canals where the locks are only, or less than, 10 miles apart, as no boat can come into or pass out of any reach whilst the enumeration is going on, there can be no fear of any persons in any boat being twice counted, but on the reaches where there are not locks at their ends this double enumeration might possibly take place, and on such reaches each boat which has been dealt with to have a specially prepared placard affixed by the Enumerator, notice being previously given that any one removing such placard till after that day will be dealt with according to law.

(6.) The books or forms of the Enumerators to be sent to the Divisional Officer, who will, after seeing that those from all reaches have come in and that no boat has been dealt with twice, send them on to the Collector or other officer as may be ordered.

(7.) In forms for the canals. "Town or village" should be replaced by "Canal" and "Number of house" by "License number of boat."

No. 85. ORDER THEREON, 15th September 1880, No. 2,171-A W.

THE proposals made in the foregoing letter are approved with the marginal modification and addition taken from the "Instructions for enumerating the boat population of the Lower Provinces of Bengal."

"After filling up the particulars for each boat, the Enumerators should make over to the head boat-man a red boat ticket, instructing him that he is to preserve it as a certificate that his boat has been counted, and to prevent its being counted again.

"Enumerators should be instructed that they are not to count again those travellers in boats who may have been counted on shore."

Desp. 2d September

SIR,

With reference to your No. 838 dt. 21st August 1880, which is I suppose a reply to my No. 1271. 4th August 1880, I have the honor to subjoin my proposals in connection with the Census final enumeration of persons travelling) or employed on the Navigable Canals of this District.

(1st) On day fixed no boats to be passed through any of the Locks from 5 to 10 A.M. previous notice of such stoppage of traffic being advertised

(2nd) Canals to be devided into "reaches" such reaches to be about 8 miles long or from Lock to Lock when their distance apart does not exceed 10 miles.

(3rd) To each of such reaches an enumerator to be appointed - who where there are

are locks will be a Lock Superintendent and where there are no Locks a Delta Superintendent or specially appointed Enumerator.

(4) At 5 a.m. of the day appointed each Enumerator to go along his reach and enumerate all people in or towing boats in that reach.

(5) On the canals where the Locks are only, or less than, 10 miles apart as no boat can come into or pass out of any reach whilst the enumeration is going on, there can be no fear of any person in any boat being twice counted. But on the reaches where there are not locks at their ends this double enumeration might possibly take place, & on such reaches each boat which has been dealt with to have a specially prepared placard affixed by the enumerator, Notice being previously given that any one removing such placard till after that day will be dealt with according to law.

(6.) The books or forms of the enumerators to be sent to the Divisional Officer
