The Committee
for the Examination of
Assistant Engineers
To
The Chief Engineer
Public Works Department
Madras

Sir,

As ordered in your Memo N^o. 1874
of the 5th Instant, we have the honor to report
that we have this day examined Mr.
C. Melford Smith Assistant Engineer in
accordance with para 154 of the Code

2 In Compliance with the permission
granted in your Telegram of the 10th Instant,
Mr. G. B. Lambert also appeared and
was examined.

3. Questions were asked both gentlemen
as to the method to be adopted, and
precautions to be taken, in carrying out
well foundations, foundations in slushy
and bad soils. The method of constructing
terraced roof, precautions necessary in
building

building rubble and ashlar faced walls
4. On all these points both gentlemen
possessed fair knowledge.

Both gentlemen possess a fair
knowledge of the resources of this District
and the best method of using the avail-
able materials

5. Questions were asked as to the
proper outturn of work by masons, and
other laborers, but neither of the gentlemen
exhibited accurate knowledge on this point.

6. As regards accounts, both gen-
tlemen had a general knowledge of the
system of accounts and of the powers
of an Executive Engineer

Sir

With reference to your memo No 1941
dated 18th ultimo I have the honor to forward
a report from Mr. Peters Executive Engineer
under whom Mr. Lambert Assistant Engineer
has worked for some time past regarding
this Officer's qualifications.

1376 N-14-18 p.2
the C. No 5767

The report forwarded with my pre-
decessor's No 419 of the 21st May seems to me
more to the point, than that now sent in by
Mr. Peters.

I have not myself had sufficient
experience of Mr. Lambert's work to give a de-
cided opinion, but have seen enough to
be certain that Mr. Lambert has of late
been very delatory over his work.

I have the honor to be

OFFICE NOTE

To C. Nos. 5222 & 5766

Examination of Messrs.
Smiths and Lamberts.
under Sections 153-155
of the Code

The report on Mr. Lambert
is not quite up to the
requirements of Sec. 153.

Both gentlemen are
stated not to have an
accurate knowledge of
the nature of work by
different classes of laborers.

Otherwise the result
of the examination is
fairly satisfactory.

2. It is noted that
both gentlemen are
deficient in knowledge
of the amount of work
to be expected from
different classes of

labours; increasing
experience will doubtless
remedy this defect, which
should receive the
careful attention of the
officers named, and
of those under whom
they are employed.
