GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

7th October 1880, No. 2,322 W.

Buildings and Roads.
Civil Works.

Read the following paper :—

No. 36. Endorsement of the Chief Secretary to Government in the Financial Department, dated Ootacamund, 28th September 1880, No. 1,895.

From Rev. W. A. LISTON, Acting Senior Chaplain, Church of Scotland, Madras, to the Chief Secretary to Government, dated Madras, 23rd September 1880.

I HAVE the honor to enclose a plan and estimate, amounting to Rs. 246-8-3, for introducing the Red Hills water into the St. Andrew's Church compound, and I will be obliged if you will obtain the sanction of His Grace the Governor in Council to this work.

2. As the new compound wall is now in the course of being erected, the present seems to me to be the most appropriate time for introducing the water, as the pipes could not be laid hereafter without interfering somehow with the foundations of the wall. Besides, when the wall is finished and trespass prevented, I hope to be able to do something for the improvement of the compound, and the introduction of the water would be a great assistance in this respect. The sum required is not large and might perhaps be met from savings on the present estimates for enclosing the compound; trusting you will be good enough to bring this matter to the favorable notice of His Grace the Governor in Council.

TRANSFERRED to the Public Works Department.

(Signed) R. DAVIDSON,
Chief Secretary.

No. 37. ORDER THEREON, 7th October 1880, No. 2,322 W.

THE Government regret their inability to sanction the proposal as the Red Hills water cannot be spared for Church or Cemetery gardens. A similar request made by the Chaplain of Vepery has lately been rejected.

Sir,

I have the honor to
enclose a Plan and Estimate amounting
to Rupees 246-8-3 (two hundred and forty six
rupees, eight annas, and three pice) for introduc-
ing the Red Hills Water into the Sancti-
fy Church Compound. And I will
be obliged if you will obtain the sanction
of His Grace the Governor in Council to
this work.

As the new compound wall is now
in the course of being erected, the present
seems to me to be the most appropriate
time for introducing the water, as the
pipes could not be laid hereafter without
interfering some how with the foundations
of the wall. Besides, when the wall is fin-
ished and trespass prevented I hope to
be able to do something for the improvement

of the compound, and the introduction
of the water would be a great assistance in
this respect. The sum required is not
large and might perhaps be met from
savings in the present estimates for en-
closing the compound. Trusting you
will be good enough to bring this mat-
ter to the favorable notice of His
Grace the Governor in Council

I have the honor to be
Sir,

Your most obedient servant
