From

Lieut Col J. Beatty R.E.

Superintending Engineer, 3rd Circle.

Encls: 1.

To

Colonel R. H. Laukey B. B. R.E.
 Chief Engineer P. W. D.

Sir,

In continuation of my letter No 1282 T.C of 31st Ultimo, I have the honor to inform you that nothing can be found in the records of the old Madurai Division of any work done towards the preparation of an estimate of the Kumbrum-Gudalur road, so that the collection of the necessary information must be begun afresh. And I am informed by Overseer Jouseca, who visited the Gudalur Ghant not very long since, that the country on both sides of the line and

and close up to it, is so covered with dense jungle that it will be impossible without considerable clearances to make the necessary survey and levels, also that the length of the line and amount of bridging required has probably been understated, as the bridging must begin some way south of Kunbum and extend beyond Gudalur.

2. Serjeant Littlewood will start for the place on the 8th Instant and I now submit an Estimate (Rs 250) of the probable cost of the survey and Estimate, for which an allotment will be required under "Provincial".

I have the honor to be
Sir
