Superintending Engineer's Office 2nd Circle
Camp Ootacamund. 19th March 1881.

No. 119
From

The Superintending Engineer
Second Circle.

To

The Chief Engineer. P. W. D.
through the Examiner. P. W. Accounts.

Sir

I have the honor to bring to your notice that in the salary bill of my Office for February 1881, I claimed the 2nd annual increment of Rupees 4 on behalf of P. Annachellum Modeliar who holds the appointment of Clerk II Class 3rd Grade in my office from November 1878 and drew Rupees 104 per mensem, including his first increment, from 1st February 1880 and the second increment of Rupees 4 became due to him from 1st February 1881 for approved service in the past one year under paragraph 56 of the P. W. Code. The Examiner of P. W. Accounts deferred the audit of this legal claim "with reference to para 3 rule 2(b) of G. O. No. 1636 W dated 12th July 1880 and states that "the increment claimed will be admitted by this Office provided the clerk has passed the examination required by Chief Engineer's Circular No. 1053 of 8th April 1880."

2. The G. O., quoted above solely regulates the pay and increment of the Clerks and Draughts

Mr 2121/81

Enclosure 1

del from Circ 27/4

2 men

Draughtsmen whose pay on the reorganization of the Department was either more or less than the minimum pay of their Class and Grade and who are allowed to continue to draw the difference as personal allowances. The provision laid down in this G.O. could not consistently be made applicable in the case of a clerk who commenced drawing minimum pay of his Class and Grade prior to the G.O., and drew regularly the periodical increment and is unconditionally eligible to draw up to the maximum of his Grade (para 2 rule C in the G.O.) under the Code rules which should be adhered to as law of the Department at least till they are altered by a Standing Order.

3. I am aware that in paragraphs 5 and 6 of the G.O., in question the Examiner and Superintending Engineers are authorized to dispose of claims of this nature but as the Examiner deferred the audit even after I furnished the enclosed Certificate I have ventured to address you on the subject.

4. As regards the Examination required by Circular No. 1053, I beg to state that it is premature to urge the objection till the detailed rules for the Examination and the method of conducting it (promised in para 3 of the Circular) are promulgated which I believe cannot be furnished till

all

all the forms and appendices alluded to up to Chapter XI of the Code have been fully issued and then a date definitely fixed for the examination after allowing a reasonable time for a complete study of the Code with forms &c. most of which latter have not yet been published.

5. Annachellum Moodeliar has passed Precise writing higher Grade and has a knowledge as any clerk of the New Code and regulations of the Department and well deserves the increment recommended by me in the certificate for good service.

6. Under these circumstances the claim for the increment is justifiable and I therefore have the honor to request that you will be so good as to authorize the Examiner to pass the valid claim of Rs 4.

Memorandum.

Letter No 2558 T.J. d/25th March/81
from the Superintending 3rd Circle.

The undersigned has the honor
to inquire whether the extra draftsman
is wanted for special work or the prepa-
ration of designs for any particular
project. If so, his pay should form
a charge against the work.

2. For the ordinary current work
of the Sanyore Division, two draftsmen
ought to suffice.

Chief Engineer P. W. D.
Madras.

Sir,

In reply to your Memo No. 825 of 29th March, I have the honor to inform you that the extra Draughtsmen applied for on account of work in Tanjore is not required on account of any special work, but simply to clear off long standing arrears, which it is found that the present Draughtsmen are quite unable to do though working their best.

2. At present the Executive Engineer sometimes finds it necessary to defer very important work merely from the impossibility

825

ability of getting the plans drawn;
and as one instance of the arrears
that have to be cleared off, I may
mention that some two years since
the Chief Engineer for Irrigation
ordered that copies of all plans of
Head works should be in the hands
of the Superintendents for reference
by Officers visiting the works, but
this has never been carried out
in Lahore owing to the constant
pressure of other work.

2. The Executive Engineer
merely wishes to reduce the
large accumulation of arrears
to a reasonable amount.

I have the honor to be

Account Madras No. 1426 1/2 dated 13 April 1889

With reference to your letter No. 81
dated the 4th of April 1889 and our conversation
on the 11th April, I have the honor to state
that I now understand that the A.Y. 1886-87
which still has to be credited to the Department
does not relate to the four special items hitherto
under discussion but merely represents the total
deficiency in the aggregate credits given by the
P.W.D. on account of the aggregate debits
raised by the Civil Department on account
of the late famine. I withdraw my former
objection viz that these particular items
could not again be debited to Famine as
they had already been debited by you to that
head. I would, however, request your attention
to the enclosed memorandum which shows
that the total debits to Famine Relief
in 1876-77 and 1877-78 amount to Rs. 305,500-
4-1. which is equal to the amount originally
debited by Civil Department to P.W.D.
added to the amount stated to be expen-
diture out of P.W. funds. On the other
