† NOTE.—The articles asked for have nearly all been contracted for, and it is improbable that the total cost will exceed this amount.

‡ Almost the whole of the articles asked for have been contracted for, and it is probable that the total cost will not exceed this amount.

§ This sum represents the total cost (minus freight) which, it is estimated, will have been incurred in this country—(it includes £400 paid to Messrs. Smith and Sons for estimated cost of rejected articles, the manufacture of the clock, and £600 which will also be paid in India for the same clock, as the bells supplied by Messrs. Smith and Sons are defective, will be sold; it is estimated that they will fetch about £400.)

Revised Statement showing the estimated outlay against indents uncomplished with, &c.,—concluded.
