To The Chief Engineer

2. For ten days in December I was hard
at work with my whole Office Establi-
-ment reorganizing the Stock and Workshop
accounts which were in a lamentable
condition, the result of my labor is recorded
in G.O. No. 610 & dated 9th March 1881, the
Statement for November was in consequence
of this far more important work and
on account of the Xmas Holidays intervening
postponed until the month of January.

3. On the 17th of November 1880 I wrote to
the Engineer and pointed out that my
Office Establishment was quite inadequate
to the work he expected from it and
I specified the objectionable item Statement
as one of the things which might easily
be modified, I sent a copy of my letter
to you, but as yet no relief has been
afforded, on the contrary the demand for
details has increased considerably and
the greater part of my time is taken up by
accounts instead of by Executive duties.

I have the honor to be

Yours most obedient servant.

THE DISTRICT ENGINEER OF NELLORE,

TO

THE Superintending Engineer
1st Circle

Sir,
With reference to your Endorsement
No. 13, dated 1st April 1881, I have the
honor to explain that the objectionable
* Item Statement Forms, 40 in number,
despatched by the Examiner on the 16th
October 1880 were used for the accounts
for September before I took charge and
that they were not sufficient having
to be supplemented by manuscript forms.
A further supply of 40 Forms was des-
patched on the 23^d November, they appear
to have reached my Office in December
long after the October Accounts had
been despatched, I was therefore obliged
to omit sending the statement for
October, in my No. 417, dated 17th November
I explained this to the Examiner.

* No indentured
for was 400.
