

N^o 205.

Executive Engineer's Office
Coimbatore, 6th May 1881.

From,

The Executive Engineer
Coimbatore Division

To,

The Superintending Engineer
Second Circle.

Enclosures. 7.

Sir,

With reference to you N^o $\frac{127}{21}$
of 2nd May 1881, I have the honor to report
the circumstances under which I was unable
to hold the Examination of the Candidates
referred to in the letter of the Principal
of the Civil Engineering College at my
Head Quarters.

I left my head quarters on 13th
April to inspect the Kodavalli Head
Works and the Clearance of the Thadapatti
and Arkencottai Channels intending
to be back at my head quarters
before 22nd the date on which the
Examination

Examination was to be held, but on my arrival at Sathiamangalam I found the Supervisor in charge so ill that he was unable to attend to his work. The measurement of the Channels did not admit of delay as they had to be opened for irrigation by the end of the month and as there was no one to do this except myself I was unable to return and did not actually return to head quarters until 28th as I was engaged every day measuring up work. When I found that I would not be able to return in time for the examination, I wrote to my Head Accountant, to direct the Candidates to join my Camp at Kudiwalli as however the address of the Candidates was not Communicated to this Office
their

their whereabouts could not be ascertained and there was no time to write to the Principal of the Civil Engineering College to obtain their address. Hence the examination was not held. You are aware I had no officer under me whom I could depute to hold the examination. In returning the examination papers to the Principal I fully explained to him the circumstances under which I was unable to hold it.

I have &c.

(Sig) J. Harman
Engr. Engineer.

N^o 199

Enclosure 7.

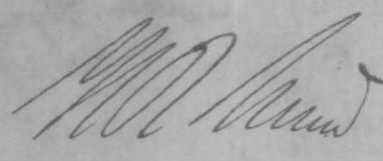

Pl. Sub. no. 1073 of 28th April /81 from E. M. with Encls. (returned)

True Copy. Forwarded to the Chief Engineer with reference to his endorsement N^o 1073 dated 28th April /81 on letter (returned) from the Principal of the Civil Engineering College.

It is considered that Mr. Harman's explanation

Explanation is satisfactory, the works
at Sattyamungalom were of the greatest
importance and the Supt. Engineer
Considers that Mr. Hannan would
have neglected his duty had he gone
into Combarone to Conduct the
Examination.

Ostacamund,
9th May 1883.

 Major R.E.
Supt. Engineer, 2nd Circle.
