SIMLA, April 29, 1881.

SIR,

In Circular No. 18, dated 10th May 1871, and Chapter X-11-82 of the 4th edition of the Public Works Code, it was laid down that the estimates of the probable value of stores required from England should be submitted to this office on the 15th August, as the Secretary of State had requested that the general estimates should be rendered to him by the 1st October of each year.

2. But the estimates for 1881-82 were received very late from some provinces, although several reminders calling for them had been sent out, and consequently the general estimates, which should have reached England on the 1st October, could not be prepared for despatch till the 9th November 1880, and did not reach the India Office till the 1st December 1880.

3. To prevent the recurrence of such delay, I am directed to request that the necessary steps may be taken to ensure that the estimates are sent forward in future so as to reach this office punctually on the 15th August, and that they contain full information regarding the funds and heads of service to which the stores are chargeable, as required in Public Works Department Circular No. 84, dated 19th December 1879.

I have the honor to be,
