Your Office Note No 39 dated 13th April 1881.

2. Colonel Spendergast and Major Mead have already been ordered to revert.
3. As regards the keep in the Executive Engineer's class, the following statement shows the present position of the Establishment as worked out by your nominal Roll.

tencens.

5. Allowing for this correction, the
keeps would be reduced to one,
and this is clearly due to Lieut.
Rawson who, when Major Cunningham
resumes his appointment, will be
available to displace one of the
present officiating Executive Engineers
and thus restore equilibrium. But
until this occurs there are no
means of providing for the charge
of any of the authorized Divisions
now held by Assistant Engineers.

6. Under these circumstances I shall
be obliged for any suggestion
which you may be able to offer
with a view to bringing the
Establishment within the limit
of financial regularity.

7. It will be observed that all
the Assistant Engineers with officiating
rank are holding bona fide
Executive Engineers' charges.
