J. P. M. at bent. Captain R.E.
Inspector General, Military Works.

Ghurrahs for holding water for use in case of fire are to be supplied by the Commissariat Department for all public buildings having thatched roofs. They are also to be provided by that Department at stations where there are no fire-engines, tanks and buckets, for all barracks and hospitals having wooden roofs; the number of ghurrahs necessary in each case being determined by the Executive Engineer in communication with the local authorities. The ghurrahs shall be kept full by the regimental establishments, or, in cases where they are unable to do so, by the Commissariat Department or Executive Engineer; as a military charge.—(Vide paragraphs 580—583 of B. B. R.)
